PART I.

JUDICIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 27th November 1894.

READ :—

Report on the working of the Indian Companies' Act X of 1866 in Mysore for the year 1893-94.

No. 8619—J. 483, DATED, BANGALORE, 27TH NOVEMBER 1894.

ORDER THEREON.—There were, at the close of 1892-93, eighty Companies, besides a Dramatic Company, working with a nominal capital of Rs. 41,53,687. During the last year, ten new Companies were registered with a nominal capital of Rs. 3,10,000, but only two amongst them have a paid up capital of Rs. 54,586.

One Company went into liquidation and one was amalgamated with another, reducing the number at work at the close of the year to 89, namely, 77 Banking and Loan Companies, 3 Banking and Insurance Companies, 3 Merchandise Companies, 4 Mills, 1 Plantation Company, and 1 Dramatic Company. 26 of these are located in Mysore, 13 at Bangalore, 12 at Chikballapur, and 8 at Tirumakudlu Narsipur, the rest being in various other parts of the Province. 4 Companies increased their capital bringing it up to Rs. 2,20,000.

There were 242 documents registered in the year against 214 in 1892-93 and the increase is accounted for by the large number of Companies newly started.

The amount collected from fees, &c., aggregated Rs. 1,040 against Rs. 680-12-0 in the previous year, and the increase is observed under "Proceedings of ordinary meetings" and "Registration of new Companies."

T. ANANDA ROW,
Chief Secretary.

To—The Registrar of Companies in Mysore.

To—The Sub-Division Officer on Special Duty in connection with Irrigation Wells.

No. 8093-102—R. 1202, DATED, BANGALORE, 19TH NOVEMBER 1894.

ORDER.—The monthly statement (Revenue Serial No. 8) revenue from Forests, assessed taxes, &c., is intended to show the demand, collection, and balance on account of District Forests under Revenue authorities, and the headings given do not provide for some of the most important items of Forest Revenue. The Deputy Commissioners have been obtaining however the requisite information from the Forest Department and embodying it in their demand, Collection, and balance statement already referred to. The accompanying statement prepared in this office shows the demand, collection, and balance under the head Forests for the eleven months ending 31st May 1894. In some of the Districts, Mysore, Hassan and Shimoga for example, the falling off under current demand is considerable, while the arrears in the Mysore District are very heavy. Deputy Commissioners cannot be held responsible for the collection of Forest Revenue properly so called. With the exception of a few items, such as seigniorage or timber and bamboos, revenue from Minor Forest produce, &c., which are under the management of the Revenue authorities, the principal sources of Forest Revenue such as sandalwood, &c., are under the control of the Inspector General of Forests. It is therefore very necessary that the Inspector General of Forests should submit to Government monthly a complete demand, collection, and balance statement under "Forests" including the few items now managed by the Revenue authorities. The Inspector General is accordingly requested to arrange to submit to Government monthly returns (in the forms accompanying) to be rendered by the 20th of the month following that to which they relate, and also annual statements in the same forms by the 15th August every year. The Deputy Commissioners will continue to show the total Forest demand, collection, and balance as heretofore in Revenue Serial No. 8.

T. ANANDA ROW, *Chief Secretary.*

To—The Inspector General of Forests and Plantations in Mysore.
The Deputy Commissioners of Districts.
The Comptroller to the Government of Mysore.

2. Deputy Commissioners are requested to submit monthly reports in the form prescribed in the Proceedings of 15th December 1892, No. 8393-406 —211-92, showing the amounts advanced in each case, expenditure up to date, and the balance of provision available for future advances.

The Deputy Commissioners of Districts.

No. 31—D. H. O., DATED 20TH NOVEMBER 1894.

ORDER.—No special demarcation of Date Groves need now be attempted. A list of all Date Groves (being unoccupied Government land) which are required for the purpose of the State Toddy Revenue should be made in terms of *existing Survey numbers*. These lists should be prepared at once.

2. If hereafter it is found that any Grove entered in this list is not really required for the purpose of the Toddy Revenue, it can easily be resigned in whole or in part for agricultural purposes. When the resignation is of a part only of a Grove, the part to be resigned should be separately surveyed and demarcated.

3. These instructions make it unnecessary for Deputy Commissioners to spend the sums of money placed at their disposal for demarcation by Order No. 16470-79 —R. F. 132-93, dated 29th March 1894.

No. 8263-71—R. 1210, DATED, BANGALORE, 21ST NOVEMBER 1894.

ORDER.—On a comparison of the accounts of the Comptroller's Office for the year 1893-94 with the Revenue returns received from Districts, it is found that the collections under certain heads of revenue as per Treasury accounts do not correspond with those exhibited in the District returns. This difference is mainly due to want of uniformity of practice in crediting the collections under certain items. To obviate this the following instructions are issued for careful observance :—

(1) The amounts of "Fish contract" should be credited to "Land Revenue Miscellaneous." and not to "XIX Miscellaneous."

(*b*) Sale proceeds of Raiyats' Receipt Books (Pattas) should be credited to "XII. Stationery and Printing."

(*c*) Sale proceeds of building sites in places other than Municipalities should be shown under "XIX. Miscellaneous."

(*d*) Fines and forfeitures by orders of *Revenue Courts* should be shown under "Land Revenue Miscellaneous," other fines of a general nature, such as, fines imposed on village servants, village officers, &c., being credited to "XIX. Miscellaneous."

(*e*) The kandayam on assessed lands given out for mining purposes is shown in some Districts under "Land Revenue Miscellaneous." It should be shown under "Land Revenue Proper" and also included in the Nagadiyat return, (Annual Serial No. 21), Talukwar particulars of area and assessment of such lands being *invariably* noted at foot of the return.

(*f*) The practice of showing "Contributions recovered from Raiyats on account of tank repairs, &c.," as an item of Provincial revenue should be discontinued, as such amounts are shown in the Treasury accounts under "Public Debt-contributions for works recoverable from Raiyats." Any savings, refunds or value of tools and plant which are to be credited to service head, are being shown in the Comptroller's accounts upon correct information rendered by the Public Works Department. Deputy Commissioners need not, therefore, show any figures in their accounts under the head "Public Works," as the requisite information will be obtained from the Comptroller.

2. As it is of the utmost importance that the collections under each head in Treasury and Revenue accounts should agree, Deputy Commissioners are requested to see that the monthly returns are prepared as quickly as possible after the close of each month and certificates obtained from the Treasury Officer *that the amounts shown under each major head of Account have been so credited in the Treasury accounts*, the cause of difference, if any, under any item of revenue being ascertained and the necessary corrections made then and there to make the amounts tally. The Treasury Officer concerned will intimate at once to the Comptroller all alterations, &c., thus effected subsequently in the Treasury accounts.

3. Book adjustments other than cash receipts, under the head "Forest, &c." should be clearly noted in the District returns.

4. The alterations that should be made in the accounts of past months of the current official year, under the foregoing instructions, should be forthwith intimated to this office and to the Comptroller's Office by Deputy Commissioners and Treasury Officers, respectively.

Docket No. 40—35, dated 11th July 1894, from the Deputy Commissioner, Chitaldroog District, soliciting instructions as to whether the new village Form No. V and abstracts of Forms XIV and XV (deposited in the Taluk Office by holders of Inam and Kayamgutta villages) should be preserved in the Taluk records permanently, or whether they may be destroyed after a reasonable time.

No. 8683-91—R. 1285, DATED, BANGALORE, 28TH NOVEMBER 1894.

ORDER THEREON.—Village account Form No. V., which is the Shanbhog's monthly demand, collection, and balance statement, need not be preserved permanently but may be destroyed three years after its receipt into the Taluk records. Abstracts of Forms XIV and XV (demand, collection and balance statement of each raiyat in an Inam village and Register of lands respectively), should be preserved in the same way as Form No. X., Rent roll of raiyats' holding Government lands.

No. 8660-8—R. 1284, DATED, BANGALORE, 28TH NOVEMBER 1894.

ORDER THEREON.—The facts are:—

Survey Nos 155 and 5 of the Hingere and Morabur villages in the Chikmagalur Taluk are held on coffee tenure, their area being two acres, 11 guntas, and 14 acres, assessed at Rs. 2-8-0 and Rs. 14, respectively. About 7 guntas of No. 155 and 5 guntas of No. 5 mentioned above are cultivated with areca. The arecanut plants are 5 and 6 years' old. In Survey No. 155, the Dhruvapairu cultivation is dependent on jungle water, while in the other case it is dependent on a well dug within the coffee garden. The Deputy Commissioner wrote to the Survey Superintendent and said that the portions cultivated with arecanut plants, especially that dependent upon jungle water, should be assessed at garden rates. The Superintendent, Revenue Survey, submits the question for orders.

2. The land irrigated by jungle stream is liable to a water-rate to be fixed under para 2 of Rule XIX of the Land Revenue Rules. That cultivated under a well is not liable to any extra charge.

READ:—

Letter No. 750, dated 31st May 1894, from the Superintendent, Mysore Revenue Survey, and its accompaniments.

I have the honor to submit the following proposals for the revision of the assessment of the Chamrajnagar Taluk of the Mysore District.

2. I append the usual report by the officer who had immediate charge of classing operations, as well as a sketch map of the Taluk.

3. The Taluk of Chamrajnagar is divided into the following magnis or sub-divisions:—

No.	Magnis.	Government villages.	Kavals.	Forests.	Alienated villages.	Total.	Remarks.
1	2	3	4	5	6	7	8
1	Chamrajnagar ...	20	...	...	...	20

6	Kuttalwadi ...	27	...	...	...	27	
7	Uyamballi ...	28	..	...	4	32	
8	Ummattur ...	...	...	..	8	8	
9	Bedarpur ...	...	...	...	6	6	
	Total ...	126	1	3	25	155	

4. Mr. Narain Rao's report will be found very interesting. His description of the Taluk under report is accurate, and the conclusions he arrives at, as to the general condition of the people, are such as I am able, from personal observation, to fully concur in. I must however request that, in all statistical matters, the figures I now give may be accepted in lieu of those furnished by Mr. Narain Rao, who, at the early date at which he wrote, and with the limited sources of information available, was not in a position to secure such accuracy as is now possible.

5. *General description.*—The Taluk under report, taken as a whole, is remarkably rich and fertile. Comprehensively, it may be described as a fine, well watered, and level plain of some 300 square miles, stretching away north-westwards from the slopes of the Bilgiri Rangan hills which form its eastern and southern boundary. There is good reason to believe that the low forest land at the foot of the range in question but not the range itself, although so stated by Mr. Rees in his "Duke of Clarence in Southern India" as quoted by the classing officer at para 6 of his report, was once occupied by thriving and well populated villages. Even now the transition from forest to highly cultivated country is very rapid. If we may judge from what is now taking place in the Gundlupet Taluk, where cultivation is rapidly extending, the re-occupation of the low forest slopes would not be a matter of many years, provided the reservation by the Forest Department did not stand in the way.

6. *Drainage.*—The distinguishing and really important feature however of this Taluk is undoubtedly the magnificent stream, well called the "Honhole" or golden stream, which, in combination with the splendid soils on its banks, secures the welfare of this tract. This stream moreover feeds some tanks, of which that of Ramasamudra, filled from the Hongalvadi channel, is the most important. The minor streams, although made use of to feed some tanks, and

of great use generally, cannot claim for the channels led from them the title to be classed as river channels. The drainage and means of irrigation generally are dealt with by the classing officer at paras 6 and 7 of his report.

7. *Soils.*—The soils are of great variety, ranging from black and rich red to poor and gravelly. As might be expected from the conformation of the country, the poorer soils are on the slopes and water-sheds towards the west, rapidly improving in depth and quality towards the east and in the valley of the "Honhole."

8. *Climate.*—The rain-fall is, in my opinion, put down too low at 25, or even 30 inches. Captain Coussmaker who classed thirty villages, chiefly of the Honganur magni, settled in 1875, estimated the average rain-fall at about 36 inches. Since that time the abnormal fall during the famine has apparently somewhat complicated the estimate of an average. Whatever the actual average fall may be, it is, in most years, enough for the country. Mr. Narain Rao (para 10) says that the early rains set in about April and *seldom fail.*

9. *Crops.*—The crops are described by my Assistant at para 11 of his report. Of dry crops, the absence of any attempt to cultivate cotton may be noted. The black soils produce almost all crops peculiar to such soil including mulberry without irrigation; double crops in dry soil are not uncommon. In the wet lands comparatively little sugar-cane is raised. Finer gardens than those of supari, cocoanut, and panvel on the banks of the "Honhole" it would be difficult to find. Date groves abound in all the hollows when otherwise unoccupied (see Assistant's para 12), the tree being here very prolific. A very short neglect of gardens converts them into a dense date tope.

10. *Markets and Roads.*—The only important markets are held weekly at Santemarhalli, Chamrajnagar, Nagavalli, and Mukadhalli, the first mentioned being a very important one. Roads will be found fully described at para 13 of the classing officer's report. The Taluk is, on the whole, fairly well provided with the means of communication. The requirements of the southern villages of the Kottalvadi magni, as regards roads, are worthy of consideration. It is true that their market of Tirakanambi is not far off, but this is only so much more in favor of letting them have what could be so easily carried out, the distance, about six miles, being so short. The road from Santemarhalli through Chamrajnagar to Tirakanambi is very important, and it is gratifying to find that its importance is being recognized by the Public Works Department. The road leading to the Kyasnur ghat is an Imperial road, said to be in good order. This road may some day become of extreme importance, with reference to railway extension in Mysore. At present the Santemarhalli-Tirakanambi road strikes me as of most importance, and although no accurate statistics are available (classing officer's para 16) in regard to the trade of the Taluk, there can be no doubt that large quantities of grain pass along this road which connects the two most important markets in this part of the country. Mr. Narain Rao (para 13) alludes to traces of a road from Atgulipur to Yelandur. This road is alluded to by Captain Coussmaker in 1875, in his report on the thirty settled villages, to which he stated it would be of great use if put in repair. Then, as now, the road in question was a mere trace.

11. *Statistics.*—The following statement affording some idea of the resources of the Taluk is, I must explain, based upon the classification returns. During classification, a fairly accurate census is made for each village classed. The following figures refer to the 126 Government villages, and to those villages alone:—

Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.
126	9,301	51,613	414	74,285	7,338	3,614	3

12. In considering the population to the square mile, it will be well to adhere, for the purposes of comparison with neighbouring Taluks, to the arable area only. The presence of so much more or less hilly and unculturable land, a mere matter of chance, is no real test of prosperity. Taking then, the arable area only, we find that there are 366 souls to the square mile. These figures compare with the remaining Taluks of the District as per margin. It will be seen that, with the exception of the Taluks of Mysore and Seringapatam, both of which, especially the former, have a large non-agricultural population, Chamrajnagar has more people to the arable square mile than any Taluk in the District. The number of carts, 3,614, is very large. They are of course chiefly waddar-carts, such as are suitable to the country. My Assistant, at para 17 of his report, gives the waddar-carts as 6,500. His figures are, I presume, those furnished by the Amildar and include all the inam villages, but even then, the number is, I think, far too great. The classification returns on the whole denote very considerable agricultural prosperity compared with neighbouring Taluks and the Taluks of the District generally. The cattle are fairly numerous, but are stated to be somewhat inferior. Grazing is scarce, and many of the animals are grazed on the edges of the raiyats' fields.

Taluk.	Population to arable sq. mile.

13. The villages under report have been divided up by Survey as follows:—

Description.	Area of Government lands.		Area of Inam lands.	Total.		Grand total.
	Occupied.	Waste.		Occupied.	Waste.	
1	2	3	4	5	6	7
Dry crop	77,379	3,405	2,012	79,391	3,405	82,796

Area of unculturable waste including village site, &c., ...						64,073
Area of alienated villages						42,575
Area of State Forests						68,059
Area of kavals						9
Total area of the whole Taluk, *i. e.*, 414 square miles ...						2,64,781

Comparatively little assessed waste, and that chiefly dry crop land, remains to be occupied. No less than 42,575 acres are comprised in 25 inam villages, while 68,059 acres are reserved forest consisting chiefly of the Bilgiri Rangan range of hills and its lower slopes.

14. In order to show the weight and incidence of the old assessment which we are revising, I have prepared the following magniwar statement :—

No.	Magni.	Dry crop.			Rice and garden combined.		
		Acres by Survey.	Old collections.	Average rates.	Acres by Survey.	Old collections.	Average rate.
1	2	3	4	5	6	7	8

2	Hardanhalli	9,353	5,724	0 9 9	1,066	3,691	3 7 5
3	Alur	4,758	4,598	0 15 6	896	5,606	6 4 1
4	Kagalwadi	468	415	0 14 2	435	2,212	5 1 4

	Total ...	77,379	55,723	0 11 6	6,989	26,692	3 13 1

Allowing what we can, of merit, to the base and distribution of the old assessment, I am afraid that the utmost that can be said in its favor is that there was an endeavour to assess highly in the case of well known thriving villages and to be lenient when the villages were known to be poor and unfavorably situated. But whatever considerations influenced the operation in question, they have now undergone very complete change as regards many parts of the Taluk. New roads have been opened out, markets have sprung up or at any rate have increased in importance, and once thriving villages, we are told, have disappeared in the low forests near the hills. The Taluk stands greatly in need of regrouping for the purpose of assessment. The lump sum taken from the villages under report as revenue must have sat very lightly as a whole, for it only gives an average, on the survey area, of Rs. 0-11-6 per acre for dry and of Rs. 3-13-1 per acre for wet and garden together. These are very low rates, indeed, for a Taluk like Chamrajnagar with its superior soils and, in many instances at any rate, its really fine gardens, even allowing that the rice lands are nothing out of the common. Even "Magniwar," the old assessment weighed very unequally, but "Villagewar" and "Isamwar," I could at pleasure multiply instances of the extremes of assessment. This inequality of incidence pervades the old assessment everywhere and, in the absence of any correct record of area, it is not wonderful that it should be so. What I have stated is also in a measure borne out by the rates quoted by Mr. Narain Rao at para 23 of his report. Dry land is said to pay from Re. 0-7-3 to Rs. 45 per acre, and garden land from Rs. 2-4-2 to Rs. 15 per acre. These dry rates are absurd although the garden rates are reasonable enough and very much in accordance with what is now being actually paid.

15. I will next bring to notice the extent of occupied land which has, presumably, been under-stated in the old accounts :—

Description.	Acres according to old accounts.	Acres by Survey.
Dry	60,041	77,379
Wet (including garden) ...	5,092	6,989
Total ...	65,133	84,368

The excess is of course very great and, in the case of wet land, it is greater than appears for, in some villages, under the old system, there are collections on wet land without any corresponding "Bijwari" being shown. Excess of this kind however is found in every taluk we take up for settlement and I do not wish to attach too much importance to the difference. I do however think that there has been a good deal af practically concealed cultivation by means of entering a fictitious "Bijwari."

16. There is really very little more to be said about the past revenue management which would be useful for our present purpose. The proposed settlement is so entirely "*de novo*" that we must look more to the revelations made by the newly ascertained area than to any information likely to be afforded by an examination of the past very imperfect system of revenue management. I will now therefore proceed to show what the realizations have been for the last twenty-five years in the 126 Government villages under report, showing for reference and comparison the prices of the staple products during the same period side by side with the collections :—

Year.	Old bijwari into khandis.	Total demand.	Remissions on account of—		Total collections.	Seers per rupee.

Nothing will be attained by attempting to analyse the "Bijwari" which is very unreliable. We must trust more to the actual collections. These have, on the whole, been very steady. Certainly they were palpably affected by the famine, as will be apparent from the collections for a few years following that calamity, but the taluk has now completely recovered itself, and the collections of 1892-93 appear as the highest ever known. Remissions appear every year, more or less, but never at a very high figure, and I am not prepared to accept them as in any great measure indicative of poverty or of an uncertain climate. The falling off in the cultivated area, and consequently in the collections, during

and after the famine, is a different matter which I cannot ignore. Knowing however, as I do, the fertility of this tract and that it was admittedly less affected by the famine than many parts of the District, I cannot help thinking, although I have no positive proof of this, that there must have been a good deal of exceptional sickness about that time which would of course affect the revenue. The remissions in 1891-92 were comparatively heavy and are stated to be due to failure of crops. The rain-fall in that year was scanty in Gundlupet and Chamrajnagar also. All things considered, I think, we must admit that this taluk, good as it undoubtedly is, and with the early rains very certain, is not entirely free from the vicissitudes of climate whether those vicissitudes affect the actual crops or the ability of the people, through sickness, to cultivate. This point may, as I shall show farther on, justify some small abatement in the total demand, under the proposed settlement, with reference to what it would otherwise have been.

17. For the purpose of assessing the 126 villages under report, I propose to divide them into four groups as below :—

Group.	Number of villages.	Maximum dry rate.			Maximum rice rate.			Maximum garden rate.			Remarks.
		Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	
I	40	2	4	0	8	0	0	12	0	0	For wet lands under river-channel irrigation, a maximum of Rs 9 is proposed for all groups.
II	12	1	14	0	8	0	0	12	0	0	
III	70	1	8	0	7	0	0	12	0	0	
IV	4	0	12	0	7	0	0	12	0	0	

The first group consists of forty villages, chiefly Chamrajnagar, Santemarhalli, and Alur Maganis, in every respect the best situated in the taluk in respect of roads, markets and population. They are situated touching, and close round, the Santemarhalli and Chamrajnagar markets and have every facility in the matter of roads. The second group consists of twelve villages in Hardanhalli and Uyamballi Maganis which possess the advantages of the first group of villages, but in a slightly lesser degree. The seventy villages, comprising the Kottalwadi and greater portions of Hardanhalli and Uyamballi Maganis, which constitute the third group, may be said to represent the average and bulk of the taluk. They are somewhat distant from markets although enjoying fair advantages in the matter of roads. This third group may fairly be compared with the adjoining villages of Gundlupet in which the maximum dry rate was Rs 1-6-0 as against Rs. 1-8-0 now proposed : the wet rate is the same, Rs. 7, in each case. I think this small difference of only two annas in the maximum dry rate is fully justifiable by the opinion which Mr. Narayan Rao (para 24) has arrived at, justified by statistics, and in which I fully concur, that the raiyats of the taluk are in many respects better off than those of Gundlupet. The fourth group villages are entirely exceptional being situated in the heart of unhealthy jungles. There is no wet or garden land in the fourth group, indeed there are only 190 acres of dry land in the whole of the four villages, cultivated at great disadvantage. A few words are necessary regarding the thirty villages already settled. The rates adopted in 1875 for those villages were necessarily, owing to their isolated position as regards any taluks in which a Survey Settlement had been introduced, declared to form no pledge as to the adoption of similar rates in further settlements. The dry rates adopted in 1875 fit in fairly with those now proposed, the wet rates adopted however were lower. No roads passed through, nor do they now pass through, the thirty villages in question and they are in this respect and also, as a consequence, in respect of markets, inferior to the villages of the first and second groups of the 126 villages now under report. The thirty villages moreover are, so to speak, on the wrong side of the "Honhole." These facts taken in conjunction with the undoubted rise in prices since 1875 render it quite unnecessary to follow strictly the wet rates adopted in 1875.

18. The effect of my proposed rates will be to give the following estimated results on the occupied area :—

Group.	Villages.	Dry crop.			Rice.						Garden.			Total.		
					Ordinary.			Channel.								
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
			Rs	Rs. a. p.		Rs.	Rs. a. p.		Rs.	Rs. a. p.		Rs.	Rs. a. p.		Rs.	Rs. a. p.
I	40	30,351	35,569	1 2 9	849	3,216	3 12 7	1,902	9,868	5 3 0	1,510	7,706	5 1 8	34,612	56,359	1 10 1
II	12	7,445	6 095	0 13 1	483	1,864	3 13 9	...	...	..	599	1,933	3 3 6	8,527	9.892	1 2 7
III	70	39,393	25,118	0 10 2	354	1.086	3 1 1	75	324	4 5 1	1,217	3,486	2 13 10	41,039	39,018	0 11 6
IV	4	190	61	0 5 2	...	...	...	...	...	...	...	...	...	190	61	0 5 2
	126	77,379	66,834	0 13 10	1,686	6.166	3 10 6	1,977	10,192	5 2 6	3,326	13, 127	3 15 2	84,368	96,819	1 2 3

The above rates are in themselves very moderate and, if viewed in the following form of statement, they involve a very moderate increase indeed on the old assessment :—

Description.	Area by survey.	Average rate per acre, old system.	Average rate per acre, new system.
		Rs. a. p.	Rs. a. p.
Dry	77,379	0 11 6	0 13 10
Wet of all kinds	6,989	3 13 1	4 3 7

An increase of only 2 annas 4 pies per acre in the average rate of dry, and of Re. 0-6-6 per acre in the *average* rate of wet and garden together, is what will scarcely be felt, considering the equalising effect of the new assessment. Unduly high rates will be swept away and absurdly low rates will be raised. The soils, in the first group of villages especially, are of a very high order, and the gardens, although no doubt of a somewhat miscellaneous description, are in some instances exceptionally good. The wet lands although not producing sugar-cane are, in some instances directly or indirectly, irrigated from river-channels. All points duly considered I think the moderation of the rates now proposed cannot be questioned. We must also remember that the area in the old accounts has been greatly under-stated and, as a consequence, the old assessment has been unduly low.

19. The extent and assessment of the waste lands available for cultivation are shown in the subjoined statement :—

Group.	Villages.	Dry crop.			Rice.						Garden.			Total.		
					Ordinary.			Channel.								
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.

I	40	784	814	1 0 7	33	124	3 8 8	22	92	4 2 11	3	7	2 5 6	846	1,037	1 3 3
II	12	382	287	0 12 0	4	20	5 0 0	...	...	...	1	4	4 0 0	387	311	0 13 10
III	70	2,119	1,213	0 9 5	27	72	2 10 8	...	...	...	4	9	2 4 0	2,150	1,334	0 9 10

It is impossible at this stage to form any estimate of the likelihood of any of these lands being taken up for cultivation. It will be seen from the average rate that, compared with the occupied lands the waste lands are poor. Some of the dry assessed waste will have to be assigned as free grazing at the settlement. On the whole, I do not think we can safely calculate upon this waste land, lightly assessed although it is, being occupied at once. The total assessment is only Rs. 2,710. The garden and wet land may probably be taken up, as the presumption is that it was relinquished on account of its being too heavily assessed under the old system. As regards extension of cultivation, I am inclined to think that the run, as in the Gundlupet Taluk, will be upon virgin land as yet unassessed.

20. The next statement shows the extent and assessment of the minor inam lands in the villages under report:—

Group.	Villages.	Dry crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average rate	Acres.	Assessment.	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate
			Rs.	Rs a. p.		Rs	Rs a p.		Rs.	Rs a. p		Rs	Rs a. p.

The above lands, especially the gardens, are somewhat superior.

21. The next statement gives a comprehensive view of the result of the proposed rates on the whole area, Government, occupied, waste, and inam, showing the effect upon each group:—

Group.	Villages	As per old accounts.		As per Survey							
				Government occupied		Government waste.		Inam.		Grand Total.	
		Bijwar Khandu.	Collections.	Acres	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
			Rs.		Rs.		Ps.		Rs.		Rs.
I	40	3,688	48,904	34,612	56,350	844	1,037	809	1,223	36,265	58,610
II	12	799	8,229	8,527	9,892	387	311	351	458	9,265	10,661
III	70	2,503	25,260	41,039	30,016	2,150	1,324	1,036	737	44,225	32,077
IV	4	4	22	190	61	120	38	...		310	99
	126	6,994	82,415	84,368	96,319	3,501	2,710	2,196	2,418	90,065	1,01,447

It is satisfactory to find that the increase is relatively greater on the large and thriving villages of the first and best group of villages.

22. ***Grazing.***—The realizations from the sale of grazing have been only Rs. 1,675, not nearly so much as was realized, before the settlement in the Gundlupet Taluk. Under the new system, the amount should certainly not be less, notwithstanding assignments of free grazing during the settlement which will of course considerably reduce the area to be sold annually.

23. ***Local cess.***—The local cess which in 1892-93 brought in Rs. 5,264 will, under the proposed settlement, be about Rs. 6,020 on occupied lands, and Rs. 75 on minor inams, in all say Rs. 7,000.

24. *Irrigation Fund.*—The contribution to the Irrigation Fund will be about Rs. 1,734.

25. *Pay of village officers.*—The pay of Village Officers can only be roughly guessed at. The Patels and Shanbhogs have but small emoluments in the shape of office land. The Patels receive absolutely no remuneration at present but the Shanbhogs get "Mashikanike" varying from 4 to 8 annas from each raiyat. The pay of Patels and Shanbhogs may be estimated to cost about Rs. 6,500.

26. The estimated result of the proposed settlement may be contrasted with the collections of 1892-93 as below, leaving out in each case "Grazing" regarding which no satisfactory estimate can be made :—

				Rs.
Land Revenue, 1892-93	...	...	...	82,415
One Anna Local Cess, 1892-93	...	...	...	5,264
		Total	...	87,679
Survey assessment on occupied lands	...	...	...	96,319
One Anna Local Cess	...	...	...	7,000
		Total	...	1,03,319

Excluding the One Anna Local Cess, there is an immediate increase of, in round numbers, Rs. 14,000. If we deduct pay of village officers Rs. 6,500, and Rs. 1,734, contribution to Irrigation Fund, there will be a clear gain to Government of a very little under Rs. 6,000.

27. I consider the small net increase involved in my proposals to be clearly far short of what might be safely added to the Government demand, but I have been guided by a policy which has ever been deemed the safest, of adopting rates consistent with those which have been successfully adopted, after full discussion, and found to work well in adjoining settled Taluks. We may certainly expect a good many applications for unassessed lands, although not to the same extent, there being far less jungle and waste generally in the Taluk under report, as in the Gundlupet Taluk. Should this be the case such lands as may advantageously be granted for cultivation should be systematically measured, classed, and assessed. The result will be an appreciable increase in the revenue. I shall make careful enquiries on this point during the settlement. The Punjur State Forest however includes a great deal of the land likely to be sought after; so perhaps my anticipations may not be fulfilled.

28. I submit the usual classwar statement showing particulars of past and proposed settlement for each village.

29. A list of Inam villages showing the kind of survey carried out in each village is appended. As fourteen of the Inam villages in which being under Government management, a detailed survey has been carried out, constitute the Tasdik in the shape of land to the celebrated temple of Chamrajeshwaraswami at Chamrajnagar, I attach a classwar statement for them in the same form as, but distinct from, the 126 Government villages under report. I do not enter into details for these fourteen villages, or discuss the rates as in the case of the Government villages, as the classwar statement affords all needful information. The total assessment of these fourteen villages, it may however be mentioned, has been raised from Rs. 13,492 to Rs. 15,528. All, excepting Sivapura (group II), are in group I. These villages are not situated in one block, but are somewhat scattered, and each has been assigned its place with reference to the grouping of the Government villages, and the rates have been worked out on the same scale and principle. In these fourteen villages the assessed lands have almost all been occupied, there being no assessed garden or wet land now available for cultivation, and only 510 acres of dry land assesssed at Rs. 450. The Inam Register of Umnattur, the Asali case of these fourteen villages, contains a very full account of the origin and present condition of the temple and its assignments. The settlement of these inam villages will be carried out at the same time as that of the Government villages. I do not append any classwar state-

ment of the remaining Inam villages of this Taluk, the settlement of which is dependent upon the election of the holders as to whether they will adopt the survey settlement or pay the cost of measurement and classification, for which purpose the owners of the villages concerned have been furnished with an estimate of the probable results of the survey settlement.

30. I shall feel much obliged by as early sanction as possible to the proposed settlement as I propose to introduce the rates early in the cold weather and all the steps preliminary to the announcement of the rates are very nearly completed.

REPORT ON THE CHAMRAJNAGAR TALUK, MYSORE DISTRICT.

[The Taluk was classed by the E and M. Establishments, the latter of which was under the charge of Messrs. Appu Rao and Shama Rao, and the infomation furnished by them regarding the portions classed by the M. Establishment is incorporated in this report.]

1. The Chamrajnagar Taluk forms the south-eastern end of the Mysore District, and is bounded on the north by the Tirumakudlu-Narsipur Taluk, the Yelandur Jahgir and a bit of the Kollegal Taluk of the Coimbatore District; the Yelandur Jahgir and part of the Satyamangala Taluk form its eastern boundary. The whole of the south is bounded also by the Satyamangala Taluk, and the Gundlupet and Nanjangud Taluks form its western boundary.

2. It is rather irregular in shape. Part of the Nanjangud Taluk runs several miles into what may be considered the regular western boundary line of the Taluk, and there is a projection, to the south, which disturbs the regularity of the southern line. The head-quarters however is situated very conveniently about the centre of the Taluk. The extreme length, north and south, is 32 miles; and the breadth, east and west, 30 miles. The total area is 292,613 acres or 451 square miles, of which 138,603 acres or 216 square miles are culturable.

3. The population, according to the Census of 1891, is 91,304, which gives 220 inhabitants to a square mile of total area, and 422 to a square mile of culturable area.

4. The Taluk is divided into ten Hoblis, and contains 188 villages as shown below:—

Hobli.	Govt. villages.	Inam villages.	Total.
1. Chamrajnagar	... 19	...	19
2. Alur	... 12	1	13
3. Kogalvadi	... 9	...	9
4. Honganur	... 16	...	16
5. Santemarhalli... ...	... 12	3	15
6. Uyamballi	... 23	4	22
7. Hardanhalli	... 40	3	43
8. Kottalvadi	... 27	...	27
9. Ummattur	... ...	8	8
10. Bedarpur	... ...	6	6
Total	... 163	25	188

5. Four villages of the Alur Hobli, eight out of the nine villages of the Kogalvadi Hobli, and the whole of the Honganur Hobli were settled in 1875; and I beg that a reference be made to a report upon that part of the Taluk by Major Coussmaker, Assistant Superintendent. Subsequent classing operations were carried on in the remaining parts of the Taluk. All the villages of the Ummattur and Bedarpur Hoblis are Inam. They are granted for the benefit of the Chamrajeswar temple at Chamrajnagar, and are under Government management, except one which is a Jodi Agrahar, the Jodi derived from which is also assigned to the temple.

6. A range of hills of considerable altitude bounds the Taluk on its eastern and southern frontiers, and is continued into the Yelandur Jahgir. The eastern part is called the Bilgiri Rangan Range, from a temple dedicated to Ranganathdevaru, situated on one of the peaks of the range in the Yelandur Jahgir. Its slopes and the valley immediately at its foot are covered with scrub jungle and are reserved by the Forest Department. It is here also that the operations for capturing wild elephants are carried on. The late Mr. Sanderson who had charge of those operations and who had a very intimate acquaintance with the present condition and past history of this part gives very interesting information about it in his description of the Khedda operations of 1889, and states that it once contained thriving villages. The remaining parts of the Taluk consist of one plain, with a solitary hill here and there to relieve the monotony of the prospect. A sort of watershed runs from the south-west extremity of the Taluk northwards through the Uyamballi Hobli, past part of the Nanjangud Taluk that impinges upon the western boundary and termina'es in the hills round Ummattur. Almost the whole of this watershed is cultivated land.

Pages 103, 104, 105, Duke of Clarence in Southern India by J. D. Rees, Esq., Madras Civil Service.

7. The drainage of villages west of this watershed is carried into the Gundlu stream which joins the Kapila at Nanjangud. That of a few villages near Ummattur is carried to the Mugur Odhalla which flows direct into the Cauvery, and the whole of the remaining part of the country forms the basin of a large stream called "Honhole" literally meaning golden stream. It is formed by the confluence of two streams, one of which rises on the eastern slopes of the Bilgiri Rangan Range and the other in the southern hills. This river, after feeding several large tanks, flows on into the Yelandur Jahgir, eventually discharging itself into the Cauvery in Her Majesty's Territories.

8. In the settled portion of the Taluk, there are several large tanks, notably the Honganur, Nagavalli, and Kotamballi tanks, which receive the drainage of the eastern slope of the hills on the border of the Taluk. But the greater part of the unsettled portion is devoid of tanks. There is a large tank near Ramasamudra which is fed from a channel called the Hangalvadi channel led from a dam across the Honhole. The tanks at Kudlur and Ummattur are also being improved by the Public Works Department. Those near Chamrajnagar and Hardanhalli are of good size, fed from channels led off dams across jungle streams, and contain a fairly good supply of water. One near Chamrajnagar is fed by a perennial stream, but the land below it, close to the bund, does not appear to be very suitable for rice cultivation.

Except perhaps a little irrigation direct from the feeder of the Ramasamudra tank, it may be said that there are no river channels in the Taluk.

9. On the slopes of the watershed mentioned in para 6, the soil is generally gravelly and shallow. The other parts contain generally rich red or black cotton soil. Towards the east, the black soil preponderates, and near Ramasamudra, Kudlur and Alur one meets with extremely fine specimens of the latter.

10. The rain-fall, according to the information furnished by the Amildar, ranges from 10 to 27 inches. In 1884-85 it was 11·43. In 1888-89 it was 10·3. The general average appears to be about 25 inches. In Gundlupet it is 30 inches, and Chamrajnagar is not less favorably situated than that Taluk. I should therefore think that the same may be taken as the average rain-fall of the Taluk. The early rains set in April and are generally depended upon for "jola," the staple crop of the Taluk. They seldom fail.

11. Besides jola, the staple crop, ragi, togari, avare, gram, Bengal-gram, oil-seeds and all other kinds of dry crops are grown. In some parts, mulberry is grown in black soil without irrigation of any kind. Rice is cultivated below tanks. There is not much of sugar-cane, at least in the unsettled part of the Taluk. In low-lying lands and on the banks of the Honhole, very valuable gardens are found containing cocoanut, arecanut and plantain trees. Wherever there are "Toreyars," a class of people akin to Bedars, they cultivate small bits of Panvel gardens. The latter are watered by hand and for the former there is generally natural moisture sufficient to render any attempt at watering unnecessary.

12. In the hollows wherever there is land not utilised for gardens there are date groves. In fact the date tree is very prolific in this Taluk, so much so that a few years' neglect of one's cocoanut garden converts it into a thick date tope. There are no other topes of importance in the Taluk.

13. The main road from Mysore to Satyamangala and Erode by the Kasanur Ghat passes obliquely through the entire length of the Taluk. It is an Imperial road and is kept in good order. A District Fund road joins Chamrajnagar to Tirumakudlu-Narsipur on one side, and Gundlupet on the other. The former part touches Santemarhalli, a very important marketing place, about midway between the two places; and the latter part passes through Tirakanambi in the Gundlupet Taluk, another important market resorted to by the inhabitants of a large number of villages. It is not now in very good order, and the Public Works Department have prepared a project for thoroughly improving it. There are traces of what was once a road from Atagulipur to Yelandur passing through villages that have been already settled. It is now almost abandoned, but if re-made and kept in order will be very serviceable to those villagers. There is the Honhole between them and Chamrajnagar, and the nature of the soil on the way makes communication with head-quarters very difficult in the rainy season. A glance at the map makes one fear that the southern villages of the Kottalvadi Hobli are very badly off for roads. There are however cart tracks, passable in fair weather, leading from every one of them to the Tirakanambi market which is less than six miles from the farthest of them.

14. Weekly markets are held at Santemarhalli, Chamrajnagar, Nagavalli, and Mukkadhalli. The first is a very important one, better even than Tirakanambi in the Gundlupet. The others are unimportant.

15. There are no manufactures worth mentioning in the Taluk. Rough cotton cloths and blankets are made up here and there, but machine-made goods are fast replacing the former.

16. There are no accurate statistics available in regard to the trade of the Taluk. There can however be no doubt that large quantities of grain are sold at Santemarhalli and Tirakanambi markets for export to the Nilgiris and to Mysore, Coimbatore, and other places. Rice, salt, jaggory, and piece-goods are imported.

17. The following statement shows the agricultural stock of the country :—

Cows and bullocks	35,430
Buffaloes	4,625
Ponies and donkeys...	680
Pigs	525
Sheep and goats	36,295
Chakra carts	94
Waddar carts	6,500

18. As in the Gundlupet Taluk, nearly all available land has been taken up for cultivation. The forests near the hills are reserved. Hence there is no grazing worth mentioning for the cattle. The raiyats graze them on the margin of their fields and feed them on straw. The cattle generally present a poor appearance, though here and there a good pair is met with. Manure is also difficult to procure for the same reason. Stable and kitchen refuse is, so far as it is available, used.

19. The dry crop lands are in the majority of cases cultivated by the owners themselves. Wherever it is sublet, the usual "Vara" (half share) system prevails.

20. The prices of grain are given by the Amildar as follows :—

Rice	Rs. 14	per 100 seers.
Jola	Rs. 5-8	do
Ragi	Rs. 5	do
Gram	Rs. 8	do

The prices were not so high when measuring was in progress in the Taluk, when jola was sold at 40 seers per rupee. They have risen considerably the last four or five years. The causes of this rise are however temporary, and it cannot be expected that they will remain steady at their present level.

21. A man gets from 3 to 4 annas a day and a woman from 1½ to 2 annas. Skilled labor is paid in proportion to the above.

22. The Patels receive no remuneration whatever. The Shanbhogs receive what is called "Masi Kanike" (Ink Tax) varying from 4 annas to 8 annas from each raiyat.

23. The Amildar states that wet lands pay from Rs. 1-5-3 to 5-10 per acre, dry crop lands from Rs. 0-7-3 to Rs. 45 per acre, and garden lands from Rs. 2-4-2 to Rs. 15 an acre. The average found at test is given in the following table :—

No.	Hoblis.	Dry crop per acre.	Rice per acre.	Garden per acre.	Remarks.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	
1	Chamrajnagar ...	0 14 4	3 5 1	5 0 11	
2	Alur ...	1 0 3	3 14 2	7 7 0	
3	Kogalvadi ...	0 12 8	4 12 10	5 11 0	
4	Honganur ...	.....	.....	.....	Already settled.
5	Santemarhalli ...	1 4 0	2 1 5	1 12 9	
6	Uyamballi ...	0 12 2	.....	3 11 0	
7	Hardanhalli ...	0 9 7	3 12 6	3 5 3	
8	Kottalvadi ...	1 8 2	5 0 10	2 11 11	
9	Ummattur ...	1 2 7	4 6 8	2 6 2	
10	Bedarpur ...	0 15 8	7 13 6	5 1 3	

24. There are a few villages of the Hardanhalli Hobli that require exceptional treatment. Punajur on the south-east frontier is situated in the heart of forests and is known as a place where a deadly type of fever generally prevails. The same may be said of Kolur, a hamlet attached to Atagulipur, and of one or two detached villages situated right in the middle of or close to forests. The villages south of Hardanhalli are believed not to be so healthy as those in the north and west of the Taluk. With these exceptions, the whole Taluk may be considered fairly prosperous. The villages are thickly populated and healthy. The raiyats are well-to-do. They have good markets to dispose of their surplus produce, and tolerably good roads communicating with them. The fact, that in all the villages except those specially noted above, almost all the available land has been taken up for cultivation and the general thriving appearance of the villages lead one to believe that the people are very well-to-do, in many respects better than the raiyats of the neighbouring Gundlupet Taluk.

Letter No. 751, *dated* 31*st May* 1894, *from the Superintendent, Mysore Revenue Survey, to the Deputy Commissioner, Mysore District.*

I have the honor to forward for your perusal and kind return with such remarks as you may deem necessary to make, the accompanying report No. 750 of the 31st instant, containing proposals for the revision of the assessment of the Chamrajnagar Taluk of your District.

Letter No 357, *dated 9th August* 1894 *from the Deputy Commissioner of the Mysore District, to the Superintendent, Mysore Revenue Survey.*

I have the honor to acknowledge your carefully prepared and interesting report for the settlement of the Chamrajnagar Taluk, together with its enclosures.

2. The Taluk is indeed a very rich and fertile one as remarked by you. The soils are of a very superior quality, and portions of the Taluk irrigated by Honhole are very productive. They are indeed of great variety, but as far as I have seen, they are nowhere very poor or of inferior quality. This will be seen from the fact that the area of culturable waste is about four per cent of the total culturable lands, while for the inferior villages situated towards the west and south-east of the Taluk and grouped in the third class, the culturable waste does not exceed five per cent. Looking at the unculturable waste also the percentage of the same to the total area in the third group is less than that of the second group, while a smaller proportion of the same in the first group may be accounted for by the fact that there are fewer hills in it.

3. As regards rain-fall, I generally agree with you, but it must be noted that it is more uncertain and liable to fluctuations than in the Taluks of Gundal and Heggaddevankote.

4. The only important market situated within the Taluk is that of Santemarahalli. But there is besides a brisk trade between Chamrajnagar and Her Majesty's Territories, and a large fair at Tirakanambi is situated very near to the south-western and south-eastern portions of this Taluk, so that almost all the villages in this Taluk may be stated to be within an easy distance of a good market.

5. The Taluk is also supplied with good roads excepting on the north-eastern corner, where road-making is very difficult on account of the black cotton soil and the drainage of the Honhole river and other minor jungle streams. Travelling in these parts is certainly very difficult in the rainy season.

6. As regards the Kottalwadi magani, I would observe that there are fair country tracks between the different villages and the Tirakanambi road, and that owing to the gravelly nature of the soil, the tracks require very little attention. Almost all the villages are, as observed by the classing officer, within easy reach of the Tirakanambi road. This accounts for the non-construction of a main road connecting the villages with Tirakanambi.

7. There is no doubt that the people in this Taluk are on the whole in easy circumstances, and that there is considerable agricultural prosperity. I am however of opinion that in point of agricultural wealth, *viz.*, carts, bullocks and cattle, this Taluk cannot compare with Gundal. The large number of waddar carts serve only to cart manure to the fields, and to take produce to the markets. Carts of a better description are few, and the major portion of cart traffic is in the hands of people of Gundal and of Her Majesty's Territories. Owing to the comparative healthiness of this Taluk, there has been a great increase of population and in consequence a larger portion of population to the arable area. The pressure of population on the land is thus greater here than in the neighbouring Taluks, and the resources being more evenly distributed, there is not as much of accumulated wealth as one would expect from the indications of agricultural prosperity of the Taluk.

8. I have carefully perused para 14 of your report, dealing with the incidence of old assessment. The average rates of dry assessment for the different maganis seem to be very fair, considering their fertility and proximity to the markets. The total average of 11 annas 6 pies per acre for dry and Rs. 3-13-1 for wet cannot be regarded as low, when it is remembered that as a rule raiyats are apt to include in their holdings at the time of survey measurement waste or other lands which were not in their possession or cultivation before. I would also observe that what is regarded as comparatively high assessment of well known thriving villages does not appear to have had any unfavorable effect, judging from the prices paid for lands in those localities, while on the other hand the lands in the more lightly assessed villages do not generally command a steady market value.

9. I see that the villages under survey have been divided into four groups with the following maximum rates :—

	1st group.	2nd group.	3rd group.	4th group.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Dry ...	2 4 0	1 14 0	1 8 0	0 12 0
Wet ...	8 0 0	8 0 0	7 0 0	7 0 0
Garden ...	12 0 0	12 0 0	12 0 0	12 0 0

The proposed rates seem very fair, though, in working out the assessment on individual holdings in the first and second groups, the present assessment on the superior lands in some of the villages have had apparently to be reduced. I find from the villagewar statement accompanying your report that in some of the villages the proposed assessment falls short of the present collections; and in the absence of more detailed information, I am inclined to believe that this is due to the levelling down of the taxation on superior lands to suit the new rates. As I have already observed, these high assessments so to speak have not pressed hard upon the cultivating raiyats, as will be seen from their prosperous condition and the high prices commanded by these lands, and may be justifiable on the ground that the gradations adopted in the survey do not from the necessities of the case completely provide for all the differences as to soil, position, &c., of individual fields. By this I do not of course question the propriety of the reductions made, though, if they had not occurred, we should probably have had a higher revenue without increasing the incidence of taxation on the poorer and less favorably situated lands.

10. I do not know if I shall be justified in making any remarks on the classing of the villages in the different groups in the absence of the detailed information on which you have proceeded. I beg leave, however, to note down here the observations that occur to me from my general knowledge of the Taluk. It occurs to me that some of the villages in the third group may, without any hardship, have been placed under the second group. I think that the villages of the Uyamballi and Kottalwadi Hoblis bordering on the Tirakanambi road may come well under the second class, considering their general prosperity and close proximity to the large market of Tirakanambi, notwithstanding the fact that the villages of the Gundal Taluk in their vicinity have had to be classed under slightly more favorable rates. In the same manner, the villages to the east of Hardanhalli, now grouped under the third class, might also, considering their proximity to Chamrajnagar and the populous village of Ramasamudra and the superior description of their soils, have come under the second group.

At the same time, Attikulpore might perhaps be classed under the fourth group, as it is unhealthy and in a very backward condition. The villagers of Hongawadi and Bandigaudanahalli have no rice lands and do not seem to be particularly well off, the first being Bechirakh, and the second having a small population of 137 souls with nine carts and are also very much out of the way. I am unable to understand why they have been placed in the first and second groups, while all the villages surrounding them are classed in the third group.

11. As regards Mr. Sanderson's coffee estate, which has been shown by itself in the third group, I beg to enclose copy of my letter to Government, No. 899, dated 27th December 1892. A portion of these lands amounting in extent to 148 acres were ascertained in the detailed survey then made by your Department, to be capable of irrigation by the Hongalvadi channel. This channel was recently improved at a great cost, on Mr. Sanderson's complaint, in order that it may irrigate these lands. In the villagewar statement accompanying your report, however, only 54 acres are shown as garden, and assessed at Rs. 129, the remaining 212 acres being classified as dry. It is not clear whether these garden lands are entitled to take water for irrigation from the channel, and whether in that case it is proper to assess them at lower rates than those of the rice lands.

12. The total results are very satisfactory, and fit in very well with the settlement of the Gundlupet and Heggaddevankote Taluks. While the assessment is not very heavy, a fair increase amounting to about sixteen per cent has been secured on the gross results, without taking into account the pay of village officers and contribution to irrigation fund. If these charges are deducted, the gain to Government is a little over seven per cent. This is a very moderate increase indeed, and the proposed settlement cannot but be considered to err if anything on the side of moderation.

13. I need not refer to the other details dealt with in the report, which have my full concurrence. I need only add that until the requirements of the Excise Department is fully ascertained, it is not desirable to give out for cultivation any culturable waste containing date trees at the Survey Settlement.

14. The enclosures accompanying your letter are herewith returned.—

Enclosure to No. 357, *dated 9th August* 1894. (*No.* 899, *dated 27th Decr.* 1892.)

With reference to Survey Superintendent's letter No. 512, dated 22nd September 1892, requesting that steps might be taken to have the late Mr. Sanderson's lands in the village of Marle, &c., Chamrajnagar Taluk, assessed temporarily at the adjoining average rates pending the introduction of the Survey Settlement into the Taluk, quoting Government Proceedings No. 3353-4—R. 536, dated 30th August 1892, I have the honor to state that of the two blocks of land, one measuring 148 acres 27 guntas is irrigated by the Honganur channel and excellently fitted for wet cultivation, and the other block measuring 152 acres 8 guntas is fit only for dry cultivation. Mr. Nanjundaraj Ars, Assistant Commissioner, in charge of the Taluk, recommended that Rs. 7-1-11 per acre might be fixed for wet lands and Rs. 1-14-0 per acre for dry lands, but considering the difficulties of cultivation and the cost and trouble involved in bringing the two blocks under tillage, I have fixed Rs. 5 per acre for wet, and Rs. 1½ per acre for dry lands, comprised in the said blocks.

Letter No. 143, *dated* 28*th August* 1894, *from Supt., Mysore Revenue Survey.*

I have the honor to forward the marginally noted correspondence ending with letter No. 357 of the 9th instant, from the Deputy Commissioner, Mysore District.

Letter No. 750 of 31st May 1894, and its accompaniments.
Letter No. 751 of 31st idem, to Dy. Comr.
Dy. Comr's. letter No. 357 of 9th Aug. 94.

2 I think that a perusal of para 12 of the Deputy Commissioner's letter leaves no doubt whatever that that officer concurs generally in my proposed settlement, although he is inclined to think that, if any thing, a little more increase of revenue, as a result of the settlement, might have been secured. The Deputy Commissioner's suggestions (at para 10) to place some villages in a higher group than I have done, are evidently in furtherence of the above view. Indeed the same idea occurred to me also when carrying out the operation of grouping but I was deterred by the fear of adopting rates not in keeping with those adopted in the Gundlupet Taluk. The Deputy Commissioner must himself see that the raising of the maximum rates in the Uyamballi and Kottalvadi maganis would stultify the opinion which he has expressed at para 7 of his letter as to the superiority of Gundal over the Taluk now under report. I must

observe that I do not myself agree with the Deputy Commissioner in considering Gundal superior to Chamrajnagar nor does the classing officer. As regards the villages to the east of Hardanhalli which the Deputy Commissioner suggests placing in a higher group on account of the superior description of the soils, I must observe that the classification has already dealt with this point and assigned a high relative value to those soils. I am not in favor of making any changes now in the grouping, and I do not think that the Deputy Commissioner is inclined to insist very strongly on his view of this question. I am obliged to him for an error which he has pointed out (para 10) in the grouping of two villages of Hongavadi and Bandigaudanahalli which in my report, appear as belonging to the 1st and 2nd group respectively. These two small villages are detached from the maganis to which they belong, and thier position escaped notice. Both villages must now go into the 3rd group and I have accordingly made the necessary entry in the Classwar statement. The estimated revenue of Hongavadi is reduced by Rs. 24, and that of Bandigaudanhalli by Rs. 63.

3. As suggested by the Deputy Commissioner at para 13 of his letter, no culturable waste containing date trees should be given out for cultivation at the settlement.

4. As regards the Deputy Commissioner's remarks at para 11 of his letter, regarding Mr. Sanderson's Coffee Estate, I find that the 54 acres of so called garden are divided into three large Survey numbers. Part of this area is watered by hand and part is irrigated from the Hongalwadi channel. The garden is entirely cultivated with plantains and some coffee, the latter being in bad condition. Having regard to the backward condition of these gardens and the difficulty of getting water, although situated below the channel, I kept the rates very low. I think perhaps however that, as suggested by the Deputy Commissioner, the garden rates for lands actually irrigated by the channel should on principle, not be lower than the wet rates, and I will therefore raise them to at least that figure. The difference will not be very great. I have made the necessary remarks in the Classwar statement. Any of the land entered as hand watered will be liable to farther assessment if water is taken from the channel, and the same remark applies to the 212 acres of this estate now classed as dry crop land.

5. I think on the whole that the Deputy Commissioner and myself agree very well about the suitability of the proposed settlement and with the exception of the very slight alterations I have made, as above shown, at his suggestion, I would recommend that the settlement be no further altered and that sanction to proceed with the introduction of the rates in the usual manner be accorded as soon as possible. I propose commencing the introduction of the rates about the end of October next.

Letter No. 217, *dated 25th September* 1894, *from the Superintendent, Mysore Revenue Survey.*

In continuation of this office letter No. 143, dated 28th August 1894, regarding proposals for the revision of the assessment of the Chamrajnagar Taluk, Mysore District, I have the honor to report that the Block granted in Government Proceedings Order No. 12750-3—G. F. 234-92, dated 31st January 1894, to Mr. Randolph Morris for coffee cultivation near his Attikan Estate in the Chamrajnagar Taluk, was omitted in enumerating the villages of the same Taluk. This estate has been formed out of the Punjur State Forest and will henceforward appear in the accounts as a separate estate.

2. A separate map has been prepared of the estate and the area of the same deducted from that of Punjur State Forest. The Taluk and Forest maps have also been corrected.

No. 8583-4—R. 1268, DATED, BANGALORE, 26TH NOVEMBER 1894.

ORDER THEREON.—The papers read above contain proposals for the settlement of the Chamrajnagar Taluk of the Mysore District.

2. Chamrajnagar is a flourishing Taluk, with a large variety of rich soils and a sufficiency of annual rainfall which seldom fails. Double crops in dry soil are not uncommon and the parts watered by the Honhole are remarkably productive. It is well populated having a density of 200 people to the square mile and is fairly well provided with markets and means of communication.

3. Thirty villages of this Taluk were settled in 1877, and the present proposals relate to the settlement of the remainder of the Taluk consisting of 126 Government villages. Deducting from the total area of 264,781 acres, the unculturable waste, alienated villages, State Forests and Kavals, the net culturable area in Government villages is as follows :—

	Occupied.	Waste.	Total.
Dry	79,391	3,405	82,796
Rice	2,809	88	3,897
Garden	3,364	8	3,372
Total ...	86,564	3,501	90,065

4. The Survey Superintendent proposes the following rates :—

Group.	Maximum dry rate.	Maximum rice rate.	Maximum garden rate.
	Rs. a.	Rs.	Rs.
I	2 4	8	12
II	1 14	8	12
III	1 8	7	12
IV	0 12	7	12

N. B.—For wet lands under River Channel irrigation, a maximum of Rs. 9 is proposed for all groups.

5. These rates compare as follows with the old rates :—

	Area by survey.	Old rate.	Present rate.
		Rs. a. p.	Rs. a. p.
Dry	77,379	0 11 6	0 13 10
Wet of all kinds	6,989	3 13 1	4 3 7

6. Compared with the rates adopted for the thirty villages settled in 1877, and those adopted for the adjoining Taluk of Gundlupet, the present rates stand as follows :—

	Rates adopted for the 30 villages settled in 1877.	Rates adopted for the Gundlupet Taluk.	Rates now proposed.
Dry	Rs. 1-12 to 2	As. 12 to Rs. 1-6	As. 12 to Rs. 2-4
Rice	Rs. 5 to 5-8	Rs. 5 to 7	Rs. 7 to 8
Gruden	Rs 15	Rs. 8	Rs. 12

7. Having regard to the increased facilities of communication and climate enjoyed by this Taluk, and the rise in prices since the settlement of the thirty villages settled in 1877, the rates proposed are extremely moderate.

8. The Survey Superintendent's proposals about the raising of the assessment on Mr. Sanderson's Coffee lands irrigated by the Hongalwadi channel to the level of the assessment of other lands enjoying similar advantages of soil and irrigation, are approved. The whole *irrigable* area should thus be assessed, as otherwise it would be impossible to control the irrigation satisfactorily, nor is it desirable to leave out any part of the area actually commanded by the channel on which large sums have recently been spent.

9. The result of the settlement on the occupied area (Hongalwadi being transferred from the first and Bandigaudanahalli from the second, to the third group), will be as follows :—

Group.	Number of villages in each group.	Old collections.	As per survey.							
			Dry.		Rice.		Garden.		Total.	
			Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
		Rs.		Rs.		Rs.		Rs.		Rs.
I	39	48,895	30,270	35,490	2,751	13,084	1,510	7,706	34,531	56,280
II	11	8,019	7,024	5,780	483	1,864	591	1,916	8,098	9,560
III	72	25,479	39,895	25,416	429	1,410	1,225	3,542	41,549	30,368
IV	4	22	190	61	...	...	...	...	190	61
Total ...	126	82,415	77,379	66,747	3,663	16,358	3,326	13,164	84,368	96,269

10. It will be seen that the increase over the old collections is about Rs. 14,000, and deducting Rs. 6,500 on account of remuneration to village officers, and Rs. 1,700 on account of contribution to Irrigation Fund, the net increase is only Rs. 6,000.

11. Government approve of the Survey Superintendent's suggestion that no culturable waste containing date trees should be given out for cultivation at the settlement, until the requirements of the Excise Department are fully ascertained.

12. The introduction of the settlement is sanctioned with the usual guarantee for thirty years.

Chief Secretary.

L. B. B.—MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 10th November 1894.

READ:—

Docket dated 22nd October 1894, No. 309—273, from the Deputy Commissioner of the Chitaldroog District, submitting the explanation called for in Government Proceedings dated 23rd August 1894, No. 3085-90—L. F. 30-94, in regard to the Budget Estimates of the several Municipalities of the Chitaldroog District for 1894-95.

READ AGAIN:—

Government Proceedings dated 23rd October 1894, No. 6309-14—L. F. 30-94, sanctioning the revised Budget Estimates of the Municipalities of Chitaldroog, Davangere and Haribar for 1894-95.

No. 7244-9—L. F. 30-94, DATED, BANGALORE, 10TH NOVEMBER 1894.

ORDER THEREON.—

As the provision of Rs. 80 entered in the original Budgets on account of the furniture of the District Office Clerk has to be divided in equal proportions between the Municipal and District Funds, the same will be reduced to Rs. 40, the balance being charged to the Disiriet Funds. The Head Office charges as now reduced amounting to Rs. 460* will be distributed among the several Municipalities in the District, as shown in the following statement:—

2. (IX) *Charitable Grants, Midwives.*—The difference between the provisions in the District Fund and Municipal Budgets is due to the former having included the pay of eight midwives, while the latter included that of only four of them, who existed at the beginning of the year. As one midwife is stated to have been recently appointed and posted to the Molakalmuru Taluk, the pay and allowance of the existing five midwives will be distri-

Letter dated 31st October 1894, No. 248, from the President of the Mysore City Municipality, submitting the explanation called for in Government Proceedings dated 1st August 1894, No. 1845-6—L. F. 20-94, in regard to the Budget Estimates of the Municipality for 1894-95.

No. 7855-6—L. F. 20-94, DATED, BANGALORE, 19TH NOVEMBER 1894.

ORDER THEREON.—*Receipt (I) Octroi.*—It should be reported whether there is any authority for not levying the Octroi duty in 1893-94 on logs of timber reserved for Palace buildings at Mysore.

Government Proceedings. 2. President's Letter. 2.

2. *(IV) Carriage tax, and tax on animals.*—Under the explanation now given, the estimates proposed are approved.

Government Proceedings. 6. President's Letter. 3.

3. *(VII) Rents.*—The lump sum of Rs. 4,000 expected from Market rents will be distributed between the two markets in the town as noted below:—

Government Proceedings. 9. President's Letter. 4.

Name of Market—	Number of stalls.	Amount.
		Rs.
1. Devaraj Market	101	3,000
2. Mandi Market	71	1,000
Total ...		4,000

4. (X) *Miscellaneous*, (*o*) *Other items.*—The credits made under this head in 1893-94, are stated to include the following items :—

Government Proceedings. 10. President's Letter. 5.

		Rs.
1.	Payment for services rendered	70
2.	Unspent balance	1,715

5. *Item* 1 should have been shown under a special head "XI Payments for services rendered to Municipalities." This should be done in the future.

6. *Item* 2.—The attention of the President is invited to Paras 27 and 21 of Government Proceedings dated 22nd April 1890, and 24th February 1893, Nos. 906-37—15, and 14284-326—L. F. 315-92, respectively, and he is requested to see that such sums are adjusted by minus entries under the same heads of expenditure, for which they had been originally drawn. The estimate proposed will be allowed.

Expenditure 7, (*VII*) *Lighting.*—The details given which are as noted below includes Rs. 5,000 on account of the cost of lighting 700 lamps at 9½ each; but the correct cost at the rate given is Rs. 5,016-8-0. Item one will therefore be raised by Rs. 17, corresponding reduction being made in item 3, so that the sanctioned estimate may remain unaltered.

Government Proceedings. 15. President's Letter. 6.

		Rs.
1.	Cost of lighting 700 lamps at 9½ each per mensem	5,000
2.	Cost of 150 new lamp-posts at Rs. 15 each	2,250
3.	Cost of purchasing and repairing lanterns, chimneys, &c. ...	510
	Total ...	7,760

(*XI*) *Miscellaneous*, (*h*) *Other items.*—The President solicits permission to enter in the supplemental Budget Rs. 600 under a special head "Purchase of seeds, Tools and Plant," and pots for the gardens maintained in the Town Hall compound and Peoples' Park. The provision proposed appears to be very large. An annual allotment of Rs. 100 may be made as a sub-head "Purchase of seeds, Tools and Plant" for the garden under each of the items "Town Hall" and "Peoples' Park." The charges on account of lighting and Public Works should be shown under their proper heads, "VII Lighting and VIII Public Works."

Letter dated 24th October 1894, No. 60, from the Deputy Commissioner of the Kadur District, submitting the Supplemental Budget Estimates of the Chikmagalur Municipality for 1894-95, and stating that the removal of three out of five Holageris in the town of Chikmagalur and their location in a more convenient locality to the east of it is necessary for the convenience and health of the towns-people, and requesting sanction thereto.

No. 8249-50—L. F. 29-94, DATED, BANGALORE, 26TH NOVEMBER 1894.

ORDER THEREON.—The Supplemental Estimates received with the above are sanctioned as noted below:—

		Rs.
Receipts—X. Miscellaneous—		
(*a*)	Sale of building sites to be raised from Rs. 5,000 to 6,000 as increase is expected by the allotment of sites for building purposes	1,000
Expenditure—VIII. Public Works—		
(*m*)	Compensation to be raised from Rs. 5,000 to 8,800, or Rs. 3,800 required for purchasing three Holageris and a site for locating them	3,800

2. Before incurring any expenditure under this head, the Deputy Commissioner is requested to submit a declaration under the Land Acquisition Regulation for acquiring the houses and lands referred to by the Deputy Commissioner.

3. The submission of the revised Municipal Budgets called for in Government Proceedings dated 12th October 1894, C. No. 11-20—L. F. 116-93, should be expedited.

No. 8487-9—L. F. 7-94, DATED, BANGALORE, 28TH NOVEMBER 1894.

ORDER THEREON.—

RECEIPTS.

(*II*) *Tax on houses and* (*VII*) *Mohatarfa.*—As at the Jamabandi settlement for 1893-94, the demand under these heads was fixed at Rs. 41,036, the estimates are proposed to be raised from Rs. 35,900 to Rs. 41,200; but it is observed that as either the House tax or Loom tax, whichever is the highest, is to be levied under Govt Proceedings No. 5815-24—L. F. 165-93, dated 2nd October 1894, and the whole demand is not likely to be collected before the end of the current year, it is undesirable to enhance the estimates already sanctioned, till the result of the recent revision of taxes is known :—

Govt. Progs. Paras 4 and 7. Presdt's letter. 2 and 3.

Items.	As already sanctioned for 1894-95. Rs.	Jamabandi settlement for 1893-94. Rs.	As now proposed to be modified for 1894-95. Rs.
II. Tax on houses	21,000	21,750	22,000

(*d*) Cart tax ...	800	1,012	1,000
Total ...	35,900	41,036	41,200

2. (*VII*) *Rents.*—The original estimate under this head was reduced from Rs. 8,200 to Rs. 7,000 with reference to the actuals of the year, (6,950). The President now explains that the increase in the estimate as stated in para 7 of his letter dated 7th March 1894, No. 298, is due to the actual rise in the monthly rental of the Market stalls. The estimate will now be raised to Rs. 8,200. In future, the figures in the column of actuals should invariably be entered and the variations between them and the estimates explained in the column of remarks of the budget Statement No. I.

Govt. Progs. Para 12. Presdt.'s letter. 4.

3. (X) *Miscellaneous*—As two-thirds of the cost of the Sudra Cook on Rs. 6 per mensem sanctioned in Government Proceedings dated 27th November 1894, No. 8437-9—L. F. 91-92, for the Chattram Hospital has to be met from Local Funds General, a sum of Rs. 48 will be entered under this head, the total cost, *viz.*, Rs. 72, being shown on the side of expenditure.

EXPENDITURE.

4. *Head office.*—The question of allowing an additional Peon and increase of pay to some of those now existing may be laid before the next Budget Committee.

Govt. Progs. Para 20. Presdt.'s letter. 7.

5. *Furniture.*—The provision of Rs. 200 on account of furniture will be sanctioned for the current year only.

Govt. Progs. Para 24. Presdt.'s letter. 8.

6. (*III*) *Collection*—(*b*) *House and Mohatarfa taxes.*—The President now explains that although the services of one of the two Octroi Mutsaddis were dispensed with, still he retained his services as an additional Shanbhog, which should not have been done without the sanction of Government. The additional Shanbhog on Rs. 8 is now sanctioned, but the President should not incur any such unauthorized charges in future.

7. (*VIII*) *Public works* (*a*) *Supervision—Watchman for the Gundopant's Karanji.*—It is explained that though this Karanji is private property, it is used by the public and recommends the employment of a watchman. Before passing final orders on this matter, the President is requested to ascertain and report whether the owner of the well is prepared to make it over to the Municipality for the use of the general public.

Govt. Progs. Para 31. Presdt.'s letter. 12.

8. *Gardeners for the Chattram Hospital.*—The provision was retained subject to the submission of explanation about the necessity for the continuance of the gardeners during 1894-95. But no explanation has been submitted and unless formal sanction is obtained for their continuance, their services should be discontinued from 1st January 1895.

Govt. Progs. Para 32. Presdt.'s letter. 13.

9. *Establishment for avenues*—The retention of one gardener is sanctioned for one year as proposed, the services of the other having been dispensed with. The provision will accordingly be reduced by Rs. 72.

Govt. Progs. Para 33. Presdt.'s letter. 14.

10. (*IX*) *Charitable grants.—Dispensaries.*—The separate reference promised in regard to the reduction of contingencies including country medicines will be awaited.

Govt. Progs. Para 36. Presdt.'s letter. 15.

11. (*IX*) *Charitable grants—Chattram Hospital.*—To meet the salary of the Sudra Cook referred to in para 3 *supra*, a sum of Rs. 72 will be entered under this head.

12. (*IX*) *Charitable grants—Government Anna Chattram.*—The details of the provision made for the Anna Chattram are as given below. The correct total of the items is only Rs. 1,597, while the same is given as Rs. 1,657. The discrepancy needs explanation. The estimate will however stand pending receipt of the report called for in Proceedings dated 15th September 1894, No. 4687-8—L. F. 421-92:—

		Rs.
1.	Honorarium for supervision	120
2.	Cook at Rs. 4 per mensem	48
3.	Waterman at Rs. 4 per mensem	48
4.	Sweeper on Rs. 3 per mensem	36
5.	Writer on Rs. 5 per mensem	60
6.	Feeding charges (lump sum)	1,285
	Total ...	1,597

13. (*X*) *Education—Municipal English School.*—Including the sum of Rs. 427 sanctioned in Government Proceedings dated 30th October 1894, No. 6601-3—L. F. 228-92, on account of the Hindustani Master and house rent of the School building, the sanctioned estimate comes to Rs. 5,448. In accordance with Proceedings dated 18th June 1892, No. 5014-5—L. F. 228-92 the provision on account of grant-in-aid to Mahrrati school will be raised by Rs. 24.

14. (*XI*) *Miscellaneous—Garden below the Dharmambudhi Tank.*—The actual necessity for the employment of two additional gardeners is not apparent and the provision of Rs. 220 for improvements also appears excessive. However as the President assures the Government that the increased provision will not be utilized unless absolutely required, the Government will not withhold its sanction.

Govt. Progs Para 44. Presdt.'s letter. 19.

15. *Other items.*—Details were called for for the lump sum entry of **Rs. 490** under this head. Instead of furnishing the details, the President states that a separate report will follow. This item will, however, be retained on the understanding that no appropriation is made from it without the previous sanction of Government.

Letter dated 23rd November 1894, without No., from the President of the Bangalore City Municipality, submitting explanation called for by Government in regard to the appointment of a Special Deputy Amildar for the City.

No. 8669-70—L. F. 197-92, DATED, BANGALORE, 30TH NOVEMBER 1894.

ORDER THEREON.—The explanation furnished by the President is not satisfactory. The "temporary establishment" referred to in para 3, clause III of Government Proceedings No. 5127-5207—L. 635, dated 21st June 1892, was intended to apply only to ministerial appointments on small salaries but not to higher appointments, much less the creation even temporarily of the appointment of an officer like a Special Deputy Amildar.

2. In the present case even the limit of three months was exceeded and no report was made to Government. The Comptroller's objection was not heeded, and it was after repeated reminders from the Government that the President has submitted his report, more than six months after the appointment was made.

3. The Government are not satisfied that the appointment was necessary, as the full time Vice-President ought to have been able to manage, with the assistance of his existing Municipal subordinates, the work entrusted to Narayan Rao. However, as the appointment has been made by the President with the concurrence of the Board for a temporary period, the President is requested to dispense with the services of the Special Deputy Amildar on 31st December 1894, and submit a bill for salary for the whole period he was entertained to the Comptroller for audit. The charge will be met out of the general savings of the Municipal Budget.

4. In future no such appointments should be made without the previous sanction of the Government, and the temporary establishment referred to in the order of 21st June 1892, will be understood to be of the nature of servants or clerks at a cost not exceeding Rs. 20 a month, and entertainable only in very emergent cases when there is no time to obtain the previous sanction of Government.

2. *Balance.*—The actual balance to be adopted will be Rs. 31,412 in lieu of the estimate of Rs. 21,749 already sanctioned.

EXPENDITURE.

3. (*VI*) *Conservancy charges.*—The Deputy Commissioner proposes to raise the sanctioned provision from Rs. 5,000 to Rs. 8,635 as noted in the margin. The sum of Rs. 7,670 provided for the conservancy of rural parts includes Rs. 2,712 required for incomplete sanitary works specified in Appendix B and also the sum required to meet the pay of 17 sweepers on Rs. 2 each, proposed to be employed in nine large and populous villages specified in Appendix C. This increased estimate is approved.

Docket dated 29th September 1894, No. 266—234, from the Deputy Commissioner of the Chitaldroog District, stating with reference to Government Proceedings dated 9th August 1894, No. 2285—L. F. 322-92, that in some of the Travellers' Bungalows there are more servants at present than are necessary, and proposing the retention of only one in each Bungalow but on an increased rate of salary, *viz.*, Rs. 5 under the designation of a caretaker, who should do the duties of a sweeper also.

No. 7459-61—L. F. 76-94, DATED, BANGALORE, 13TH NOVEMBER 1894.

ORDER THEREON.—The proposal of the Deputy Commissioner is sanctioned with effect from 1st January 1895. The effect of this order is that in the ten third class Travellers' Bungalows, the strength of the future establishments will be ten caretakers costing Rs. 600 per annum instead of the existing twenty-two hands costing Rs. 1,272. The Deputy Commissioner is requested to see that the twelve servants who will have to be thrown out of service are provided for in other Departments.

Letter dated 22nd October 1894, No. 407, from the Deputy Commissioner of the Mysore District, submitting a copy of letter dated 2nd idem, No. 361, from the Sub-Division Officer, French Rocks, furnishing the statements called for in Government Proceedings dated 4th June 1894, No. 20849—L. F. 322-92, in regard to the halts made and fees collected in three third class Travellers' Bungalows in the Sub-Division and proposing to do away with Kotwals, the salaries of Dandis being raised by one rupee each.

No. 7862-3—L. F. 72-94, DATED, BANGALORE, 19TH NOVEMBER 1894.

ORDER THEREON.—The proposal to do away with the services of Kotwals in the third class Travellers' Bungalows at Kikkeri, Chinkurli and Nelligere is sanctioned, with effect from 1st January 1895.

2. The persons thrown out of employ should be provided with suitable employments if possible, or recommended for pension or gratuity if entitled.

3. From the information embodied in the statements furnished, of which an abstract is given in the margin, the number of halts made by, and amount of fees collected from, the travelling public, are so very small, that it is a matter for consideration whether the services of Dandis also may not be dispensed with from 1st

Letter No. 122, dated 3rd September 1894, from the Director of Meteorology in Mysore, reporting that the new Observatory building has now been occupied and that the various instruments are being placed in position, and submitting proposals for the appointment of the observing staff and the menial establishment required.

No. 7125 8—G.F.14-92, DATED, BANGALORE, 7TH NOVEMBER 1894.

ORDER THEREON.—The Director of Meteorology proposes that Mr. N. Venkatesaiengar, B. A., at present Chief Observer at the Observatory and Science Assistant in the Central College, be removed from the College establishment and appointed Chief Observer on his present pay of Rs. 160+60 or 220, to rise by annual increments of Rs. 10 to a maximum of Rs. 400. Government approve of the proposal to disconnect Mr. Venkatesaiengar from the Central College, and to appoint him Chief Observer at the Observatory, but his pay will be fixed at Rs. 200, rising to Rs. 300 by annual increments of Rs. 10 in accordance with the scale fixed for Educational Officers, C, Class I. The carriage allowance of Rs. 20 now drawn by Mr. Venkatesaiengar will be continued.

2. Mr. Cook also proposes that—

(1) B. N. Garudachar be appointed First Assistant Observer on Rs. 50 to rise by biennial increments of Rs. 10;

(2) M. Raghavendra Rao be appointed Second Assistant Observer on Rs. 30 to rise by biennial increments of Rs. 10; and

(3) D. Subramanyam, at present Head Master of the Municipal English School at Davangere, be appointed Clerk on Rs. 25 to begin with.

These appointments are sanctioned on the *present* salaries recommended, and Mr. Cook is requested to report what maximum salaries he would propose for them.

3. The menial establishment proposed is sanctioned on the *present* salaries recommended.

4. These orders will have effect from 1st November 1894 in the case of officials and servants who are already in the service, and from the date of entertainment in the case of those to be newly appointed.

5. The establishment of the Observatory will, under these orders, stand as follows:—

Memorandum dated 16th August 1894 from the Deputy Commissioner, Chitaldroog District on various points connected with the extension and improvement of Davangere town.

No. 7453-6—G. 1798, DATED, BANGALORE, 7TH NOVEMBER 1894.

ORDER THEREON.—The Deputy Commissioner's Memorandum with the Dewan's Orders thereon are reprinted hereunder for information and guidance :—

MEMORANDUM.

Davangere is a large and populous town. It stands first in the District both in size and importance. Being an overcrowded town, its extension has become a matter of pressing necessity. The Sanitary Engineer inspected it last year and concurred with me in thinking that the sooner an attempt was made to extend it towards the east the better. To enable the Municipality to acquire the lands required for this purpose and to lay out roads and streets thereon, a sum of Rs. 3,680 was sanctioned last year by Government from the Sanitary Budget grant of one lakh. One-half of this is a grant-in-aid from Provincial Revenue, while the other half is a loan repayable by the Municipality. The work being one of some magnitude, the Government was pleased to regard it as coming under Part I. About 80 acres of land have already been acquired, and some 20 acres more remain to be acquired. The total probable cost of the acquisition of lands is Rs 3,000. A beginning has been made in the direction of laying out roads and streets. The amount provided for this item in the sanctioned estimate being only Rs. 1,290, very little could be done beyond excavating a few side and check drains and levelling the ground in a few places. A great deal more has to be done in order to make the extension a success. The roads and streets have to be properly aligned, formed, and gravelled. A few of them have to be metalled as well. All of them have to be provided with stone drains, some "V shaped" and others "Box." A large number of tunnels has to be constructed. The sinking of a few good wells is likewise indispensable, say, one for each main street. A couple of large ponds properly excavated and rivetted, as well as a couple of large cart-stands, are also a want which should be soon supplied. These and other improvements are likely to cost about Rs. 20,000. Unless such conveniences are provided at an early date, it would not be easy

ORDER.

The advance of Rs. 20,000 asked for is sanctioned and will be given at once. Whether any portion of this is to be a grant-in-aid cannot now be decided. On this, orders will be passed hereafter after consideration of the claims upon the annual provisional grant for sanitation. There is however no reason to believe that Davangere wants as grant Rs. 10,000 for the purpose in question, if orders hereafter given are followed in the disposal of sites.

to induce people to build houses in the Eastern extension. Now that the work has been earnestly taken in hand, I am anxious that it should be satisfactorily completed as early as possible. The Municipality finds itself unable to provide funds for this purpose, since the whole of its resources have to be devoted for at least two or three years to come, to the improvement of the sanitary condition of the old town which at present is in a condition the reverse of satisfactory. In these circumstances, the only course open is, to appeal to the generosity of Government and to apply for a grant of the requisite funds from the Sanitary Budget. I beg to suggest that the further funds thus asked for be dealt with in the same way as the small grants already sanctioned. In other words, the project may be dealt with as a whole and included in Part I of the Sanitary Budget.

2. Another point for decision is how and by whom should the sites in the extension be disposed of? Most of the lands have been parted with by their owners for much less than the market value. In making allotments, therefore, of building sites, I am disposed to think that these persons should be shown some consideration. The same remark applies to the owners of houses and vacant sites which have been recently taken up by me for opening out new roads and widening existing ones both in the old town and in the new. Moreover, a hard and fast rule directing the disposal of vacant sites by public auction, is likely to result in well-to-do persons outbidding and excluding poor houseless people, thus defeating the very object with which the town is being extended. All things considered, it seems best to invest the Deputy Commissioner with a large amount of discretion in the matter, so that, while trying to dispose of the sites to the best advantage, he may be enabled to deal fairly and considerately with all persons concerned. He will of course see that better prices are obtained for shop sites than house sites.

The grain store sites will command large prices owing to their situation, and they are best sold by auction. All others to be disposed of by the Deputy Commissioner in such manner as he considers suitable for particular localities. When sale is not by auction, the price fixed should *as far as possible* leave sufficient margin to recoup the Municipality for cost of acquisition, roads, public wells, &c. I will not, however, lay down a hard and fast rule, as local circumstances must largely affect the question of what is a fair price.

3. The present station premises seem to be large enough both for present and future purposes. They are not likely to require extension in the direction of the locality, in which new shops are proposed to be built. To be able to connect those shops with the Railway goods-shed by sidings, the former should be

This matter is under correspondence with the Southern Mahratta Railway Company, who have been asked whether 200 feet between centre of Railway line and proposed new buildings would not be sufficient. If they recommend the reservation of a wider breadth, it will be necessary to set back

located within convenient distance of the latter. It does not consequently seem either necessary or advisable to throw back the shops from the site which has been already selected for them.

4. The order of the Dewan that the allotment of sites should be made according to castes and classes has to be liberally construed. It will be given effect to as far as possible without causing practicable inconvenience to intending builders of houses.

5. There is one more point on which I wish to make an observation. This relates to the sale proceeds of building sites. While, on the one hand, Government makes grant-in-aid of half the cost of acquisition, laying out, &c, the Municipality on the other hand bears the other moiety of such cost by repaying by instalments the loan advanced to it by Government. Strictly speaking, therefore, the sale proceeds of sites should be credited both to Government and to the Municipality in equal proportions, unless the Government is pleased to accede to my recommendation by generously giving the Municipality the full benefit of such realizations. In either case, the proceeds as realized, should at once be paid into the Treasury, the balance of the loan being afterwards repaid by instalments.

the stores buildings and do away with the proposed rear line of houses.

I have no particular wish in the matter. What the would-be-builders require in this matter should, as far as possible, be complied with.

The Municipality may treat as their Revenue, all realizations from sales.

Memo of main grounds of second appeal against the Judgment and Decree of the District Judge of Mysore, in Appeal Suit No. 16 of 1894.

Mr. V. H. Karve-Defendant (Appellant).

Vs.

Ramanujaiengar-Plaintiff (Respondent).

I. The suit cannot lie if it be regarded as one against the Government, or any Officer of the Government in respect of an act done by him under the express authority of the Government, fo –

(*a*) In Mysore the Legislative and Executive functions are vested in the same authority, namely, the Maharaja; and no suits in the Civil Courts of the State can lie in respect of any acts done by the Maharaja or by those deriving their authority from Him to administer the Executive Government of the State, the remedy in all such cases being only by petition to the Sovereign authority, and

(*b*) The Civil Procedure Code as introduced into Mysore both in 1877 and 1882 intentionally omits provision for suits against the Government.

II. Again as regards suits against Public Officers in respect of an official act not coming within the scope of Para I above, what would exempt him from liability is not laid down in any written law in force in Mysore, and in the absence of such an express Law, the principles which can equitably apply to such cases are—

(*a*) That a Government Officer acting within the exercise of his official duty and in accordance with the Rules laid down by competent authority for his guidance is not liable to be sued for any consequences of his act, and

(*b*) That even if such act be outside the range of his duty or opposed to the Rules prescribed for his guidance, he is liable only if he has acted maliciously or without due care and precaution.

In the present case the act complained was one within the range of the Defendant's official duty and in accordance with the Rules of the Public Works Department of the Government, and even if the said act was outside the range of his duty or done otherwise than in accordance with prescribed rules, there was neither malice nor want of due care and precaution on the Defendant's part, and therefore the Defendant is not liable.

III. The Government and its Officers are the sole judges of the kind and quantity of the irrigation supply to be given to any Government land charged with wet (or rice) rates of assessment and no Civil Court has jurisdiction to try such a question. Both the Lower Courts have failed to grasp the tenure on which unalienated wet land is held by an occupant, and the limits of the Defendant's duty for control and regulation of Irrigational water for the service of such land.

IV. The observations of the Lower Appellate Court, in support of the admissibility of the Plaintiff's suit, that the Defendant contested the Plaintiff's claim in his official capacity of Executive Engineer and not expressly on behalf of the Government, (the bearing of which is far from clear) apparently introduce a distinction where none exists.

V. The Court of the first instance had no jurisdiction to entertain the suit, it being opposed to the provisions of Section 229 of the Land Revenue Code.

VI. The Lower Appellate Court erred in holding that the question of jurisdiction could not be raised in the Appellate Court for the first time.

VII. The Appellant prays for a reversal of the decrees of the Lower Courts, with an award to him of costs throughout.

1. Order of Government, No. 12559-62—2718, dated 1st February 1894, sanctioning the prosecution, upon certain charges of bribery, of Madhava Rao, Amildar of Arsikere under suspension.
2. Proceedings of Criminal case No. 5 of 1893-94, resulting in the discharge of the said Madhava Rao and another, by the District Magistrate of Tumkur on 9th April 1894.
3. Reports from the Deputy Commissioner of Hassan to the Inspector General of Police, Nos. 113 and 149, dated 5th and 26th September 1894.
4. Report submitted by the Inspector General of Police under date the 1st October 1894.

No. 8528-38—G. 2019, DATED, BANGALORE, 28TH NOVEMBER 1894.

ORDER THEREON.—After careful consideration of all the circumstances elicited in the papers above read and in the trial and conviction of Nanji and Raya on the charge of murdering a woman named Kempi, by the Sessions Judge of Mysore, and after duly considering the explanation submitted by the Amildar under suspension (Madhava Rao), the Government have arrived at the conclusion that he is utterly unfit for the responsible Revenue, Police, and Magisterial duties of an Amildar.

2. On receiving intimation of the murder, the Amildar showed unusual activity in proceeding to the spot, with the Hospital Assistant, and causing the body of the murdered woman to be exhumed, viewed by the persons present, and subjected to a medical examination. There existed the strongest grounds for suspicion, as the exhumed body showed serious marks of violence, and these marks corresponded with the information which the Amildar had received. But he took no steps beyond sending to the District Police Officer reports calculated to make that Officer rest in the belief that no murder had been committed, and when he met Mr. Changaiya Chetti in person on 2nd October at Dudda, he assured him that Kempi appeared to have met with a natural death. Thus, we find that, when really a murder had been committed and was capable of ready proof, the Amildar reported after personal investigation that none had been committed. His conduct can, under the circumstances, be attributed to only one of two causes, either corrupt motive or utter incompetency. The existence of "corrupt motive" has not been judicially established, though all circumstances give rise to the grave suspicion that such motive did exist, but the proof of "utter incompetency" is quite patent. It is difficult to believe that the Hospital Assistant attempted, or succeeded, in misleading a man of the Amildar's intelligence, or that, with the local influence and information which the Amildar actually commanded and which were capable of ready augmentation in the circumstances of his personal visit to the spot and his then surroundings, he could have honestly come to the conclusion that no suspicion of foul play existed. At any rate, if, in spite of all advantages in his favor for arriving at the true conclusion, he really arrived at the wrong one, as taking the most charitable view he may be held to have done, no stronger proof of his utter incompetency for the position of an Amildar is required. The Government accordingly direct his dismissal from the post of Amildar with effect from the date of his suspension.

The following letter, No. 536, dated 22nd November 1894, from the Deputy Commissioner, Mysore District, to the Chief Secretary to the Dewan of Mysore :—

I have the honor to state that some of the respectable raiyats of Palhalli, in the Seringapatam Taluk, have resolved to form an Agricultural Bank, on the lines sketched by the Dewan, in his last Dasara Speech. They met on the 18th instant, at Palhalli, and unanimously resolved to institute the Bank, and adopted the rules and memorandum of association, at the same meeting. The Proceedings embodying the same and signed by all the memberes, is submitted herewith.

2. There are now 16 members on the rolls, and the rules provide for lending not more than Rs. 1,000 to each member. The entrance fee has been fixed at a nominal amount, *viz.*, 4 Annas. The rates of interest fixed are Rs. 7 per cent per annum for loans not exceeding Rs. 100, and 6 per cent for larger sums, to be recovered at the time of repayment. In other respects, the rules are the same as those contained in the Kanarese draft rules circulated with the Dasara address. The Amildar reports that the members are respectable and solvent, and that a sum of Rs. 16,000 may be lent to them without any risk.

3. I beg that the Proceedings may be forwarded to the Registrar of Joint Stock Companies for registration, and that sanction may be accorded to the institution of the Bank, and to the Advancing to the Bank by Government, from time to time, sums of money not exceeding in the aggregate Rs. 16,000 at any time.

4. I further request that the Government will be pleased to grant the concessions promised in the Address, for the remission of stamp, registration, and other dues, and for periodical audit by Government servants.

Proceedings of a meeting held on the 18th November 1894, at Palhalli village, Seringapatam Taluk, for the establishment of an Agricultural Bank at Palhalli, in conformity with the rules published in the Mysore Gazette, as per scheme proposed on the subject by the Dewan at this year's Dasara Meeting.

Admitted before me this 18th day of November 1894.

C. B. SESHAGIRI RAO,
Munsiff and 2nd Class Magistrate, Seringapatam.

No. 39—D. H. O., DATED, BANGALORE, 29TH NOVEMBER 1894.

ORDER THEREON.—The memorandum of Association and rules will be forwarded to the Registrar of Joint Stock Companies for registration.

2. The Government are pleased to reduce the stamp duty and registration fees payable on documents executed by, or in favor of, the Bank as noted in the Appendix.

3 The Deputy Commissioner is authorized to place in the Seringapatam Taluk Treasury a sum of Rs. 16,000, and to lend to the Bank up to the said amount, moneys as required for lending to its members. Interest must be recovered from the Bank half-yearly up to 31st December and 30th June of each year at 4 per cent per annum on the sums actually borrowed by the Bank.

4. The Comptroller is requested to arrange for careful audit of the Bank's accounts and preparation of correct balance sheets every half year.

5. The Government are pleased to note the appreciation of the system of Agricultural Banks, shown by the raiyats of Palhalli, and the readiness with which they have combined to start one in their village, and they hope that intelligent and respectable raiyats in other parts of the Province will follow their example before long and avail themselves of the advantages of similar Banks.

The following papers on the subject of the organization and work of the Geological Department :—

1. Dewan's Minute, dated 18th July 1894.
2. Dr. J. W. Evans' Memorandum (without date).
3. Mr. R. Bruce Foote's Memorandum, dated 8th November 1894.
4. Letter from Mr. R. Bruce Foote, dated Bangalore, 14th November 1894, and statement of the cost of the proposed Geological Department.

No. 36 D.H.O.—M.1-90, DATED, CAMP MYSORE, 26TH NOVEMBER 1894.

ORDER THEREON.—The Government resolve that the work of the Geological Department now in course of formation should be as laid down in the Dewan's Minute of 18th July 1894 and elaborated in the subsequent memoranda drawn up by Mr. Bruce Foote and Dr. Evans.

2. The following scale of establishment for this Department is sanctioned :—

	Sanctioned permanent scale of monthly salaries.	Sanctioned present *ad-interim* scale of monthly salaries for 1894-95.	
A. Officers—	Rs.	Rs.	
1 State Geologist	1,500	1,800	Mr. Bruce Foote, the present incumbent, has been engaged for a term of 3 years expiring on 30th September 1897.
1 Senior Geologist and Analyst.		900	Dr. Evans will rise in this appointment to Rs. 1,200 by annual increments of Rs. 100 in 3 years.
1 Prospector	...	300	Rising to Rs. 500 by annual increments of Rs. 40.
1 Assistant Prospector ...	...	250	Rising to Rs. 300, after one year's approved service.
7 Assistant Geologists (one of whom will be the Librarian and Curator of the Museum) with a maximum salary of Rs. 300 each	2,100	...	
7 Apprentice Geologists at Rs. 100 each	...	700	
	3,600	3,950	
B. Subordinate Establishment—			
1 Head Clerk, Rs. 70 to 100 ...	100	100	
1 Writer	20	20	
1 Laboratory servant ...	12	12	
1 Hospital Assistant ...	25	25	
1 Dafadar	10	10	
11 Peons	73	73	
8 Laskars	56	56	
1 Sweeper	5	5	
	301	301	
Total A and B ...	3,901	4,251	

The scale of salaries sanctioned for the current year thus amounts to Rs. 4,251 per month.

3. The travelling allowance of Mr. Bruce Foote has been fixed by the terms of his engagement as follows :—

1. Rs. 10 per diem for himself, and
2. For Railway Journeys, one first class fare for himself, third class fare for four servants and the fare of two horses.

All Government tents supplied to Mr. Bruce Foote will be carried at Government cost.

4. The travelling allowances of the other employés should follow the rules of the Mysore Service Regulation and are fixed as follows :—

1. Dr. J. W. Evans, as for Deputy Commissioners and Executive Engineers.
2. Prospector, Assistant Prospector and Assistant Geologists, as for Assistant Commissioners and Assistant Engineers.
3. Apprentice Geologists, as for Apprentice or Sub-Assistant Engineers.
4. Subordinate Establishment, under the ordinary General Rules.

5. A lump sum grant of Rs. 1,400 for the Library, Laboratory and Furniture for the Museum is sanctioned for the current year.

6. In other Departments considerable reduction of expenditure is contemplated with effect from 30th June 1896, and the need for similar reduction in the cost of the Geological Department is anticipated, if not by June 1896, at least by June 1897. It is therefore important that the Department should be so constituted and worked as to make such reduction readily feasible hereafter. This consideration has been kept in view in framing the scale of establishment sanctioned above, and it is only necessary to add that the most important duty of the establishment now sanctioned is to train a local staff of Geologists for the entire work of the Department in all its branches under the direction of a single European Head of the Department to be styled the State Geologist. Under such circumstances it is hereby expressly laid down that all Officers who may now be entertained for the present work of the Department should be regarded as on Temporary Establishment liable to be discharged at any time after 30th June 1896 without the three months' previous notice of discharge contemplated by Section 287 of the Mysore Service Regulations (Section 478 of the British Civil Service Regulations).

7. Officers of this Department are entitled to be supplied with Government tents for their use on tour of inspection or other public duty according to the scale given below, and to the benefit of the exception provided for in Article 539 of the Mysore Service Regulations :—

For the State Geologist.

2 Large single pole tents with double kanats.
1 10' Bechoba.
1 Necessary tent.
2 Pal tents for orderlies and servants.

For Senior Geologist and Analyst.

1 Large single pole tent.
1 12' Hill tent
1 Necessary tent
2 Pals.

For the Prospector.

2 12' Hill tents
1 Necessary tent.
1 Pal.

For the Assistant Prospector

1 12' Hill tent.
1 10' Bechoba.
1 Necessary tent.
1 Pal.

For the Apprentices.

5 10' Bechobas or pals.

For the Hospital Assistant.

1 10' Bechoba or pal.

8. The State Geologist is authorized to countersign bills of the Officers of this Department and their Establishments in cases of continuous halts of more than ten days at one place.

9. This Department will be entitled to the benefit of the provisions of Article 562 of the Mysore Service Regulations.

Petition, registered No. 1343, dated 13th November 1892, from Sanjivaiya, Carpenter, residing in Mangoti, Shimoga Taluk, praying for the cancellation of the professional tax of Rs. 4 levied from him.

2. Letters Nos. 1270—1222, dated 19th April 1893, and 48—42 dated 11th July 1894, from the Deputy Commissioner, Shimoga, reporting that Sanjivaiya had not been taxed for a number of years, as he was old and that the house occupied by him and his three sons was but recently taxed Rs. 4 ; and stating further that tax is imposed on the houses of the professionals with due consideration of the profession carried on in, and the number of professionals occupying the house, the class of the house, terraced, tiled, thatched, &c.

No. 9218—Pet. F. 65-94, DATED, BANGALORE, 25TH NOVEMBER 1894.

ORDER THEREON.—The Deputy Commissioner does not state correctly the principle of variation in the Mohatarfa house-tax in villages, and the Government cannot recognize as proper the plan of varying the tax on "consideration of the profession carried on and the number of professionals occupying a house" as reported in the Deputy Commissioner's letter.

2. The houses in question appear to be tiled ones, and the rates for villages under the Orders of 11th September 1860 are Rs. 7, 6, 5 and 2. If in the Shimoga District, an intermediate rate of Rs. 4 has been adopted under the discretion given in the Commissioner's 10th reply of October 1860 to the Superintendent of Nagar, it is not the intention of the Government now to interfere with the rate adopted.

3. The mamul exemption of the registered Barabaluti Hakdar from the Mohatarfa house-tax should of course be maintained, but the exemption cannot be extended to subordinate members of the Hakdar's family. Adopting this principle, the non-taxing till recently of the house of the petitioner Sanjivaiya (the younger brother of the registered Hakdar) was an *unauthorized omission* and not an exemption on account of old age as local officials apparently assume. The rectification now of this omission by the imposition of the tax on the house occupied by the petitioner and his three sons cannot give rise to any just complaint.

4. It is a mistake to impose more than one house-tax upon a house because several members of the same family occupy it, unless these members live separately and have separate means of access to their respective portions of the house.

5. The quality of the petitioner's house is not stated, but if it is inferior to that of Mallappa (petitioner's nephew), the rate should be reduced from Rs. 4 to Rs. 2.

No. 9109-18—PET. F. 27-94, DATED, BANGALORE, 28TH NOVEMBER 1894.

ORDER.—Cases occasionally come up before the Courts, Civil and Criminal, and before the Executive Officers of Government, in relation to complaints of wrongful obstruction to processions in public streets, or of the use against mamul of music or insigna in a procession in public streets. Orders have been issued from time to time for the guidance of the Police and Magistracy whenever their action or interference is called for, but there are no definite rules for the information of the public, explaining the extent of the rights of individuals or classes of persons in regard to processions and the use of music and insignia, and the conditions subject to which the exercise of such rights can be permitted. In view to framing a set of such rules, the Government wish to have a collection of cases of the kind referred to and

of the executive orders issued, made from as early a date as is possible. The Chief Court will be asked to furnish a statement of such cases, Civil and Criminal, in the form annexed, with copies of important decisions on the subject passed by it or by the Judicial Commissioner, and likewise the Inspector General of Police and Deputy Commissioners of Districts will furnish copies of executive orders issued by them.

Letter No. 569, dated 13th November 1894, from the Deputy Commissioner, Bangalore District, reporting on the petition of Rangappa of Sulibele, Hoskote Taluk, complaining that the Shanbhog Gumasta of Sulibele had appropriated to himself, without giving any share to petitioner, the *mirasi* levied at the rate of one kolaru per kandi from the raiyats who cultivated the bed of the Sulibele tank on Batayi tenure in the year Khara.

No. 9145-52—Pet. 890, DATED, BANGALORE, 30TH NOVEMBER 1894.

ORDER THEREON.—The levy of *mirasi* complained of was illegal, and should have been refunded when brought to notice.

2. The rule is that Batayi cultivation should not be allowed except as a relief work. Temporary cultivation of tank bed, when desirable, should be for assessment fixed in money and not for rent in kind under the Batayi system.

Appeal No. 113 of 1892-93.

Appellant.		*Respondent.*
Subbaiya of Chittanahalli, Gubbi Taluk, Tumkur District.	*Vs.*	Beluragauda.

Decision.—As admitted by the Respondent, Appellant was Patel of Chittanahalli and Amanikere and had possession of the office for twenty years prior to 1879. In March 1879, the then Deputy Commissioner removed the Appellant from his charge of the Amanikere and appointed Respondent, who is unconnected with the Appellant, as its Patel, on the ground that the Appellant was not equal to the work of both the principal village and the Amanikere. Appellant then appealed to the Division Commissioner who called for a report, but the Division Commissionership was abolished, before a report could be submitted, and the Deputy Commissioner struck the case off the file on 15th September 1879.

2. Appellant brought a regular suit for the office in June 1891, and the Assistant Commissioner who heard the case dismissed it on the ground that the suit was barred by the Law of Limitation, and the Deputy Commissioner confirmed his decision in appeal. The present appeal is against the decision of the Deputy Commissioner.

3. The Government observe that the Respondent having, on 2nd April 1879, assumed charge of the office of Patel from Appellant, the adverse possession as against Appellant commenced from that date, under Article 124 of the Limitation Act. The provisions of the explanation appended to the article would apply only to cases in which there has been no actual assumption or taking charge of the office, when it would be necessary to ascertain when the profits are usually received and to compute limitation accordingly. The suit has been properly dismissed. The present appeal is therefore rejected.

No. 8515—P. F. 77-93, DATED 19TH NOVEMBER 1894.

Appeal No. 106 of 1893-94.

Appellant.	*Vs.*	*Respondents.*
Srirangachar *alias* Ranganna ... (Plaintiff).		1. K. Srirangachar 2. Singaiengar 3. Venkatachar 4. Tirunarnaiengar, (Defendants).

The Appellant (Plaintiff) claims the office of Prasadamanyam at the Narayanaswami's temple at Melkote.

2. The Tasdik Pattis of the temple show that Plaintiff's grand-father held the office from 1809 to 1819, that the 1st Defendant's father stepped in as Plaintiff's grand-father's substitute in 1819, and continued to hold the office till 1851, when he went to Benares, when the Plaintiff's father was appointed on application of 1st Defendant's mother and held the appointment till his death in 1854. On the death of the Plaintiff's father, the 1st Defendant was with the sanction of the Chief Commissioner appointed to the office as one entitled to succeed to it, and he continued to hold it till 1888 when on his application the office was transferred to his sons the 2nd and 3rd Defendants. The Plaintiff then urged his claims, but the Government considered that his contention, which in effect, was that the Chief Commissioner's order of 1854 was improper, was untenable and dismissed his petition. Thereupon he filed this regular suit in April 1889 to recover possession of the office on the ground that 1st Defendant held it on his behalf and was giving him the Miras. The Sub Division Officer, French Rocks held that the suit was barred by limitation, but on Appeal the Deputy Commissioner observed that he would not attach any force to the question of limitation, that the allegation that the 1st Defendant held the office

as Plaintiff's agent was not satisfactorily proved, that nevertheless the 1st Defendant's liability had to be adjudicated upon with reference to a Partition deed of 1884 produced by Plaintiff which had not been properly enquired into. He considered that the suit was not in proper form and dismissed it without prejudice to Plaintiff's establishing his right to the office under the Partition deed in a competent Civil Court.

3. This case must be remitted for a final decision by the Deputy Commissioner on the merits, as the disputed Hak is one not subject to the adjudication of the Civil Courts under the Circular Order of Sir Mark Cubbon, dated 26th October 1854, copy of which will be forwarded to the Deputy Commissioner for information. The case is, it may be added, one eminently fit for an amicable adjustment between the parties themselves, because the adoption of Bindige Srirangachar by his sister should perhaps be treated in strick law as not existing. At any rate, the parties apparently regarded the adoption as of no consequence and lived together and regarded themselves as co-parceners. Divested of adoptions, the office appears to have been held by various members of the same family in the order indicated below :—

EDUCATIONAL.

Proceedings of the Government of His Highness the Maharaja of Mysore (Educational),—dated 19th November 1894.

C. No. 112, DATED 19TH NOVEMBER 1894.

ORDER.—By para 4 of Order C. No. 128-44, Educational, dated 27th October 1892, the cost of certain schools maintained from the Local Funds at the head-quarters of Taluks and Sub-Taluks was transferred to the Provincial Fund Budget. A contribution however of Rs. 15,582 was sanctioned from the Local Funds to the Provincial Funds for the maintenance of these schools. This contribution has been shown on the Receipts side of the Provincial Funds Budget for Education for the years 1892-93 and 1893-94. Government is pleased to order that this contribution from the Local Funds which includes Rs. 399, the additional cost of the Kannada school at Grama in Hassan Taluk, and now amounts to Rs. 15,981, shall cease from the 1st July 1894, and the schools at the head-quarters of Taluks and Sub-Taluks, for the maintenance of which the contribution was made, shall be maintained wholly from the Provincial Funds from the same date.

PUBLIC WORKS.

Proceedings of the Government of His Highness the Maharaja of Mysore (Public Works),—dated 6th November 1894.

READ:—

Chief Engineer's Note of 26th July 1892 and Bangalore District Deputy Commissioner's letter No. 131 of 12th idem, recommending the remission of the proportionate share of Inamdar's contribution towards the sanctioned project of Rs. 5,742 for the restoration of the Challaghatta Tank in Bangalore Taluk, proposed to be levied, as they hold one-third of the atchakat.

No. 5397-417—961-81, DATED, BANGALORE, 6TH NOVEMBER 1894.

ORDER THEREON.—The Inams in question are Minor Inams, and should have the benefit of the orders contained in Government Proceedings No. 1769-89—302-40 of the 1st of April 1892, under which the compulsory levy of contributions towards Irrigation works costing less than Rs. 25,000 each is waived. The Inamdars are liable to pay "a proportionate share of the cost of the repair of Government works of Irrigation in common with ordinary kandayam raiyats." But when the claim as against kandayam raiyats is waived, it is desirable that Minor Inamdars should be treated in the same liberal manner. Under such circumstances, the Inamdar's contributions in all such cases may be waived in future.
